Sped Case Manager Signature (at IEP mtg) _____ Date _____

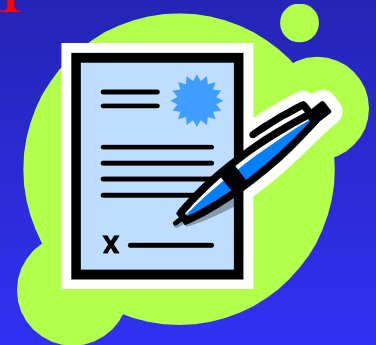

Pre-Algebra, Advanced Algebra 1 and Advanced Geometry

Advanced Math courses will go beyond the standard math curriculum.
Advanced math students will:

- Apply higher-order thinking strategies to solve rigorous multi-stop problems
- Use critical thinking to analyze math topics
- Focus on higher-order applications of math concepts.

- Teacher recommendations will be marked on the registration form.
- Teachers will tell students date form is due back to them.
- Must have parent signature on the form.
- Make sure address and phone number are correct.
- Questions about recommendations should be directed to current teacher.

- Choose one elective, Band, Choir or Interest Block
- 6th graders will get the elective they choose.
- HVMS will enter courses and give each student a list of courses they are registered for in Feb. Changes can be made at that time.
- No schedule changes after **June 1**

What is a high school Advanced course?

- Highly rigorous course
- Students may earn college credit
- Students must do well on Advanced Exam
- Advanced Exams require critical thinking and writing skills

What is a middle school Advanced course?

- Provides greater access to Advanced courses
- Exposes students earlier to skills and habits of mind necessary for Advanced courses
- Content-specific instructional strategies to teach students advanced-related skills, concepts, and assessment methods

What are the characteristics of students who will be successful in Advanced courses?

- Attend school regularly
- Prioritize tasks & responsibilities
- Work within time constraints
- Appreciate a challenging curriculum
- Be willing to complete summer reading and/or science project
