

Name _____

Date _____

Mr. Gallagher's science class goes bird watching. The picture graph below shows the number of birds the class observes.

Number of Birds Mr. Gallagher's Class Observed

- a. How many more birds did Mr. Gallagher's class observe on Wednesday and Thursday than on Monday and Tuesday?

Wed/Thur

Mon/Tue

They observed 12 more birds on

 $10 \times 6 = 60$ birds $8 \times 6 = 48$ birds

Wednesday and Thursday.

- b. Mr. Manning's class observed 104 birds. How many more birds did Mr. Gallagher's class observe?

$60 + 48 = 108$ birds observed by Mr. Gallagher

This is 4 more birds than Mr. Manning's class.
