

Name _____

Date _____

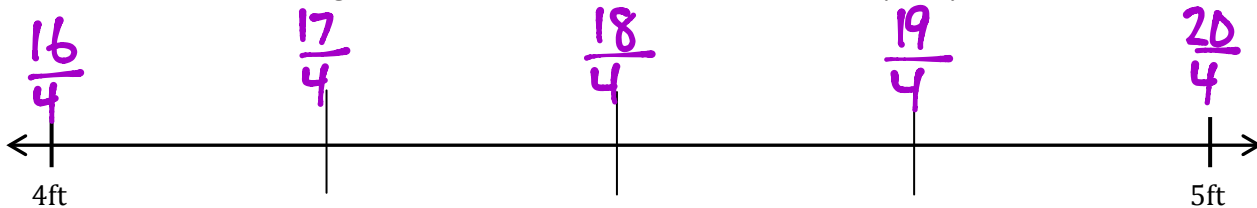

Locate and label the following fractions on the number lines.

4. Wayne went on a 4 km hike. He took a break at $\frac{4}{3}$ km. He took a drink of water at $\frac{10}{3}$ km. Show Wayne's hike on the number line. Include his starting and finishing place, and the 2 points where he stopped.

5. Ali wants to buy a piano. The piano measures $\frac{19}{4}$ ft. long. She has a space 5 ft. long for the piano in her house. Does she have enough room? Draw a number line to show and explain your answer.

Yes, Ali has enough room. The space available is 5 feet long, which is $\frac{20}{4}$ ft. The piano is only $\frac{19}{4}$ ft long.
