

Name \_\_\_\_\_

Date \_\_\_\_\_

1. Convert days to weeks by completing the number sentences.

$$\begin{aligned} 35 \text{ days} &= \underline{35} \times (\underline{1} \text{ day}) \\ &= \underline{35} \times (\underline{\frac{1}{7}} \text{ week}) \\ &= \underline{\frac{35}{7}} \text{ weeks} \\ &= \underline{5} \text{ weeks} \end{aligned}$$

2. Convert grams to kilograms by completing the number sentences.

$$\begin{aligned} 4,567 \text{ grams} &= \underline{4567} \times \underline{1 \text{ g}} \\ &= \underline{4567} \times \underline{\frac{1}{1000} \text{ kg}} \\ &= \underline{\frac{4567}{1000}} \text{ kg} \\ &= \underline{4.567} \text{ kg} \end{aligned}$$
