

Name _____

Date _____

1. Follow the flow chart and put the name of the figure in the boxes.

2. $SQRE$ is a square with area 49 cm^2 and $RM = 4.95 \text{ cm}$. Find the measurements using what you know about the properties of squares.

- a. $RS = \underline{9.9} \text{ cm}$
 b. $QE = \underline{9.9} \text{ cm}$
 c. Perimeter = $\underline{28} \text{ cm}$
 d. $m\angle QRE = \underline{90^\circ}$
 e. $m\angle RMQ = \underline{90^\circ}$

$$A = l \cdot w$$

$$= 7 \cdot 7$$

$$= 49 \text{ cm}^2$$

Since the area is 49 cm^2 , each side length is 7 cm . This means the perimeter is $7 \text{ cm} + 7 \text{ cm} + 7 \text{ cm} + 7 \text{ cm}$ which is 28 cm .
