

Name _____

Date _____

1. List the Fibonacci numbers up to 21, and create, on the graph below, a spiral of squares corresponding to each of the numbers you write.

2. In the space below, write a rule that generates the Fibonacci sequence.

Add the previous two Fibonacci numbers to get the next Fibonacci number in the sequence.

3. Write at least the first 15 numbers of the Fibonacci sequence.

1, 1, 2, 3, 5, 8, 13, 21, 34, 55, 89, 144, 233, 377, 610
