Have fun with it and let me know what your high score is!</p> <p>https://drive.google.com/file/d/1mayYe7h3-OXODAJ0LxsfVPdrk0gd6zhM/view?ts=5ed94e68</p> <p>If you can't see the video I will explain how to play: You will need any small object (I chose a water bottle) and a plastic bag. Set a timer for 30 seconds. When the timer starts, toss the bag in the air, touch the object which should be a few</p>	<p>sing or dance? Play jumprope or clapping games? Maybe you like to noodle on an instrument like keyboard, ukulele, recorder, kazoo or guitar. Or maybe there's a favorite song you love to listen to. Check out my flipgrid below to see my favorite way to make music at home. Click the green button to record a little video of your own music to share with us. Or write your reply in the comments here. Remember, there are no wrong notes!! Beginning musicians know the power of YET and</p>	<p>about the engineer design process. My challenge for you is to design a paper airplane. I challenge you to see how far you can get your airplane to fly! I would like you to measure your distance and send me a picture of you and your plane and tell me about how it went.</p> <p>Remember, my favorite step in the engineer design process is the improve step! I have attached the link for Brainpop and a link for a how to make a paper airplane.
