The Worthington Science Day is designed to help students:

- ◆ Learn and practice critical thinking, inquiry, technological design and investigative skills.
- ◆ Learn research methods and encourage the development of research techniques - obtain data, keep a research log or notebook, learn graphing and develop conclusions.
- ◆ Foster imagination and creative thought.
- ◆ Develop organizational skills.
- ◆ Work independently as well as in a group.
- ◆ Enhance communications skills.
- ◆ Meet others interested in science study.
- ◆ Earn recognition for academic excellence.
