

# Mathematics

## Grade Seven – Accelerated Math 7 - Unit 5

### Essential Understandings:

- Linear equations
- Transforming equations
- Coefficients
- Distributive property
- Combination like terms
- System of linear equations
- Graph linear equations
- Solutions (point of intersection)
- Substitution/ elimination methods
- Inspection
- Define variables
- Develop an equation from a word problem
- Word problem vocabulary

### Content Vocabulary:

System of linear equations  
Graphing method  
Substitution method  
Inspection  
Solution  
Simultaneous  
Coordinate points  
Intersect
