Lewiston Mill System District

- A. **Lewiston Bleachery and Dye Works (Pepperell Associates): c. 1876.** Built by the Franklin Company to provide finishing operations for associated Lewiston mills; now contains 18 buildings. Pepperell Associates assumed ownership in the 1920's and added the sheet factory on Willow Street in 1929. (550-690 Lisbon St.)
- B. **Androscoggin Mills (Arkwright Co.): c. 1861, 1867, 1872.** Mill #1 built in less than one year by Captain A. H. Kelsey to manufacture cotton goods. (19-27 Locust St.)
- C. **★Androscoggin Mill Duplex Houses: c. 1871 .** Three Italianate duplex houses built for managers of the Androscoggin Mill. Two have been altered considerably and continue to be used for housing. The third, 269-271, is in the first stage of restoration. (257-271 Park St.)
- D. **Cumberland Mill: c. 1868.** The main mill was a three-story Greek revival type, woolen cloth manufacturer, warehousing of new material and finished goods. (354-368 Lincoln St.)
- E. **Lewiston Gas Light Co.: c. 1853.** Complex to produce, cleanse, and pipe coal gas throughout Lewiston for street lighting and cooking. Only the 1908 Meter House (Greek Revival style) remains. Now owned by Northeast Utilities, Inc. (310-330 Lincoln St.)
- F. **Avon Manufacturing Company (Avon Mill): c. 1862.** A rectangular Engaged Pilaster Style, for weaving, cloth finishing, bleaching and packing. (304-308 Lincoln St.)
- G. **“Gas Patch.”** Densely placed single-family homes built on Franklin Company land by Irish immigrants in then unpleasant proximity to gas works (see # E).
- H. **“Little Canada.”** To accommodate rapid immigration from Canada, rows of wood-framed tenements constructed on Franklin Co. land along curved, narrow streets and alleys, created an old world atmosphere. Some charm gone with loss of several buildings since 1956.
- I. **St. Mary’s Church: 1908-28** A Norman gothic-style church of Maine granite designed by Boston architects O’Connell and Shaw. An architectural jewel, it served the fast-growing population of “Little Canada.” Now Franco-American Heritage Center with a museum and performing arts center. (46 Cedar St.)
- J. **Continental Mills (Porter Mill): c. 1855-1858.** Mill #1 designed by A.D. Lockwood, D. Whitman and C. F. Douglas for the Franklin Company. Second Empire Style. The #2 Mill with unique tower (now demolished) and mansard roofs covering mills 1&2 were added in 1872. (2-44 Cedar St.)
- K. **★Continental Mill Blocks: c. 1866.** Designed and built by Amos Lockwood and Albert Kelsey in a transitional Greek Revival-Italianate style. The two four-story brick structures are all that remain of a number of mill blocks used by the mill as housing for its workers. (66-82 Oxford St.)
- L. **Lewiston Mill: c. 1860.** Mill #1 (Gate House) architect A.D. Lockwood. Gothic Revival Style, built for the Lewiston Bagging Company, manufacturer of seamless cotton bags. The #2 Mill, also designed by A. D. Lockwood, was used for making bags made of jute. (1-47 Beech St.)
- M. **★Dominican Block: c. 1882.** Designed by George Coombs in a Queen Anne Style for the Dominican Fathers for their first parish school of 650 students. The five-story brick and granite structure also became a social and political center for the French-Canadian community. (141-145 Lincoln St.)

- N. **F. X. Marcotte Furniture Store: c. 1901.** Four-story brick building. Marcotte (See # 100) prospered by serving new immigrants. Present building originally housed three businesses (furniture, pharmacy and music), plus several apartments. Exclusively a furniture store for the past fifty years and the oldest in the State. (132 Lincoln St.)
- O. **★Grand Trunk Railroad Station: c. 1885.** Known as “The Depot” for Lewiston & Auburn Railroad, this rectangular brick structure was Lewiston’s link to the Canadian National Railway system. Thousands of French-Canadian immigrants passed through this city’s “Ellis Island.” (103 Lincoln St.)
- P. **Railroad Park: 1874.** Last train arrived in 1956; all that remain are trestle, turntable and depot (see # O). Now an 8-acre recreation area with bicycle and pedestrian paths and space for events like Balloon Festival and Festival de Joie.
- Q. **Davis Block: c. 1911.** Home of wholesale grocery businesses, including Freeman G. Davis Co. and then Milliken-Tomlinson Co. (13-17 Lincoln St.)
- R. **★Cowan Mill (Aurora Mill): c. 1850.** 4-story brick, Greek Revival Style building, built on the site of Lewiston’s first cotton mill (John A. Briggs, 1836) which burned in March 1850. David Cowan was mayor twice. (21 Mill St.)
- S. **W. S. Libbey Mill (Lincoln Mill): c. 1846.** #1 Mill, brick 5-story, Greek Revival Style, produced cotton, woolen, and rubber coated fabrics over the years. Two major fires destroyed most of the original building. The #1 Mill is the only remaining structure. (21 Mill St.)
- T. **Lewiston Water Works Gate House: c. 1878.** Architects Stevens & Coombs. A small Italianate structure with gates to direct flow of water pumped from river for the city’s water supply until 1899.
- U. **Union Water Company Gate House: c. 1851.** Architect David Whitman. Built for the Lewiston Water Power Company to control the flow of the Androscoggin River through 2 miles of canals to many mills for water power and later electrical generators. (150 Main St.)
- V. **Lewiston Machine Company: c. 1853.** Architect David Whitman, Greek Revival Style, for the Lewiston Water Power Company. Served as a foundry to supply castings and machine parts to the cotton industry. Later converted to a woolen mill (Avon Mfg. Co., 1906). (2-22 W. Bates St.)
- W. **Maine Central Railroad Station: c. 1917.** Classical Renaissance successor to 1856 & 1891 stations. Last passenger train 1960. Now Steel Service Center. (End of Bates St.)
- X. **Knapp Shoe Building: 1912.** Constructed as the Bates Street Shirt Co., then became Knapp Shoe factory, and now newly renovated for medical offices. (29 Lowell St.)

Y. **Bates Mill: c. 1850-52.** Mill #1 designed by David Whitman. Primarily a cotton mill, it later became famous for its bedspreads. #5 Weave Shed with saw-tooth roof, designed by architect Albert Kahn, completed in 1914. (65-117 Canal St.)

- Z. **Hill Manufacturing Company: c. 1854.** Mill #1 designed by architect David Whitman; note distinctive dormers. Produced sheeting, sheet cloth and other cotton goods. Bates Manufacturing assumed operation at a later date. (41-59 Chestnut St.)

A BRIEF HISTORY OF LEWISTON

In 1768 the Pejepscot Proprietors, a Boston-based land company, granted to Jonathan Bagley and Moses Little of Newbury, Massachusetts, land on the east side of the Androscoggin River at Twenty-Mile Falls. The place was named "Lewistown," in honor of the late Job Lewis, a Boston merchant and former Proprietor.

The first white settlers came in 1770, and several families followed. Lewiston became a town February 18, 1795.

Water power was harnessed relatively early by a canal and a dam built of timber by 1808-1809. The town grew slowly, reaching 1549 inhabitants by 1830. Because most were farmers, the population was widely dispersed.

In 1836 local entrepreneurs, primarily the Little family, organized a company to build dams, canals and mills, but they lacked the capital to achieve their goals. Reorganized as the Lewiston Water Power Company in 1848, it was taken over by the Franklin Company in 1857. These Boston investors, led by Benjamin E. Bates, created a "company town." They were the chief employer, land-holder, landlord, and dominated the city's financial institutions, political life, and its religious and cultural activities.

The company financed the canal system and several textile mills. Irish immigrants were employed in the construction, under the supervision of Capt. Albert H. Kelsey. These mills prospered during the Civil War, as the owners correctly foresaw that the war would be long; they had stockpiled sufficient cotton to maintain production.

Mill owners constructed tenements along Canal, Park, and Oxford Streets to provide supervised housing for Yankee farm girls from surrounding towns who provided much of the early work force. In 1850, the population had jumped 99 percent one decade to 3,584 and then 107 percent to 7,424 in 1860. The growing city attracted in 1855 the establishment of Maine State Seminary, which later became Bates College, chartered in 1864. When Lewiston was incorporated as a city, Jacob Barker Ham took office as the first mayor in 1863.

Lisbon Street became the main commercial center. Lewiston and Auburn constructed a railroad spur to the Montreal-Portland railroad line about 1873. After that, thousands of French Canadians migrated to Lewiston and settled between Lisbon Street and the river. The rapid in-migration helped to raise the population to 19,083 by 1880. In forty years, the city had grown tenfold.

To accommodate the growing population, city services expanded rapidly, including the high school (1850), a fire company (1849), a city park granted by the Franklin Company (1861), a water works (1873), a horse railroad franchise (1881), and the extension of the city water system to Lake Auburn (1899).

Lewiston adopted its current city charter in 1979. This established a city administrator and abolished most boards.

Throughout the twentieth century, population, industry, and shopping centers expanded outward from the city center. Competition from the South and abroad led to the closure of most of the textile mills. The city is developing new uses for these structures. The population in Lewiston was about 40,000 from 1940-1980, but has declined since then. Further growth in the region has continued in the neighboring towns.
