# Why NYU?

✘ I chose New York University mainly because of its reputation. I have always cherished my schoolwork more than anything and I love that this school would provide a challenge for me. The alumni of New York University include several famous actors and musicians that I admire, such as Lady Gaga and Angelina Jolie. I would hope by going to this school I would be as successful as some of them.

# MY TWO MAJOR CHOICES

## English

I would enjoy English because I have a passion for writing and the English language. Learning the history of English would be rewarding and extremely enjoyable for me.

## Psychology

I would enjoy Psychology because the way our brains work is very complex and interesting. I feel that I would be fully captivated with every lesson and discovery in this subject.

# GETTING IN:

---

## Admission Requirements (ACT, SAT, GPA, etc.)

- ✘ The chances for admission look best for students with GPAs of 3.6 or better, ACT scores of 27 or better, and an SAT score of about 1900 or higher.
- ✘ Note also that a few students were accepted with test scores and grades below the norm. NYU has holistic admissions, so the admissions officers are evaluating students based on more than numerical data. Students who show some kind of remarkable talent or have a compelling story to tell will often get a closer look even if grades and test scores aren't up to the ideal.

# GETTING IN:

---

## Proof of Graduation:

Accepted students must provide the Office of Undergraduate Admissions with proof of graduation by July 1 of the year they plan to enroll. In all cases, proof of graduation must be provided prior to beginning the first semester of classes at NYU.

## Documents Required:

- ✗ Results from the General Education Development (GED) Test.
- ✗ Original or officially certified copies of nationally recognized high school graduation examination results, such as the Advanced Level General Certificate of Education or the International Baccalaureate Diploma.

## Process:

- ✗ **1. Fill out and submit the online application.**
- ✗ The application requires a **Personal Statement**
  
- ✗ **2. Send an official copy of your high school transcript.**
- ✗ Official copies can only be provided by your school office. Transcripts must be signed and stamped by your school office.
  
- ✗ Make sure your transcript includes all coursework beginning with 9th grade.

## **ACADEMIC PROBATION**

Students are placed on academic probation when their semester and/or cumulative GPAs fall below 2.0, but remain above the minimum standards of the schools requirements. Students falling into this category are notified by letter and are directed to meet with their advisers.

# Degree Requirements

Serving professionals with a wide variety of backgrounds and career goals, NYU offers the following master's level curricula:

*ENGL (36 credits)* is designed for:

Graduate students seeking a master's degree in Education combined with initial New York State certification as a secondary school English teacher.

*ENGC (36 credits)* is designed for:

Secondary school English teachers who have initial New York State certification and/or a New York City license and are seeking professional certification.

- English is offered as a major at NYU, and the GPA needed to graduate is **3.5**

## ENGLISH- DEGREE REQUIREMENTS AND PREREQUISITES

# ***PASS OR FAIL & ONLINE CLASSES***

- ✘ Students may choose to take one class Pass/Fail each semester.
- ✘ No more than 16 credits can be earned
- ✘ **CLASS OPTIONS:** Writing I & II, Cultural Foundations I, II & II, Social Foundations I, II & III).
- ✘ **ONLINE CLASSES:** Classes for English, Liberal Arts, Psychology, Social Science, and Astronomy majors are available online.

## BACHELOR OF ARTS

A Bachelor of the Arts degree program provides students with a more expansive education, requiring fewer credits that are directly linked to a particular major. Instead, students are expected to earn credits in a variety of liberal arts subjects. Courses in the humanities, English, the social sciences and a foreign language are typically part of this degree program. Students can pick and choose from a broad array of courses to fulfill these requirements, allowing them greater flexibility to customize their education to match their individual goals and interests. Bachelor of Arts degrees are commonly offered in fields like English, art, music, modern languages and communication.

**(ENGLISH OFFERS A BACHELOR OF ARTS)**

## BACHELOR OF SCIENCE

Programs resulting in a Bachelor of Science degree are generally more strictly focused on their subject matter, requiring more credits that are directly linked to the major. Students are expected to concentrate their academic energies on mastering the technical and practical facets of their field. They have fewer opportunities to explore topics outside of the subject of their major. Bachelor of Science degrees are usually offered in technical and scientific areas like computer science, nursing, mathematics, biochemistry, and physics.

# Jobs Open on Campus

**Food service –** One of the classics of campus jobs is work in the dining hall. Students may serve food, clean tables, wash dishes, work at the cash register or check-in, etc. With more and more dining options available on campuses, this area may include more potential jobs than ever.

**Tutoring –** If your student has an area of academic strength, she may be able to land a job with the academic support center tutoring other students.

**Residence Assistant –** Some students are assigned responsibilities in residence halls to supervise and counsel the students living on their floor. These students often undergo significant training and then are either paid or receive a discount on their housing costs.

**Library –** The campus library often hires students to work at the check-out desk, shelve and organize books, etc.

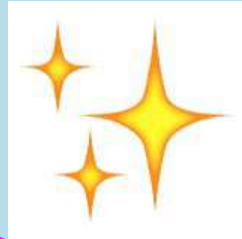

# *TRANSFERRING RULES*

- ✘ **To be eligible, you must be in at least your second semester of consecutive full-time study at your current NYU school or college.**
- ✘ **Transfer admission for students currently in their first full-time semester of college work is highly competitive.**

# SUMMARY

I learned from this project that College is a completely different atmosphere than High School. In the small passing period between the two, you are expected to let your independence and individuality expand and grow. Through this process I have taken away the moral of never trying too hard to grow up too fast!

# WHAT WOULD I DO DIFFERENTLY?

Next time, I would make sure to not procrastinate, and focus more in class. This project has taught me a lot and got me excited about College and what it has to offer. Overall, I am extremely proud of this PowerPoint and I am glad that I completed it and tried my best on each slide.
