## IB and AP Courses

We are proud of our students that are choosing to take a rigorous IB or AP course as part of the 2016-2017 school year. *Research proves that the extra efforts put into AP and IB courses have a direct effect on success in college.*

An important part of these courses is the assessment that comes from the College Board (for AP courses) and the International Baccalaureate Organization (for IB courses). These assessments help the students see a cumulative picture of what they have learned, help the teachers guide their instruction based on specific feedback and data, and, in many cases, can earn college credit for the students.

**All students that take and AP or an IB course need to plan on taking the assessment associated with each course.**

Plan ahead so that you can meet the registration and payment deadlines. The details of the costs are listed below.

Do not hesitate to ask your counselor for further clarification.
