**1. CALL TO ORDER**

The meeting was called to order at 6:33 pm.

**2. PLEDGE OF ALLEGIANCE**

Kevin Bash led the Pledge of Allegiance.

**3. PUBLIC COMMENT**

No public comments were received for this meeting.

**4. INTRODUCTIONS**

Jami Merchant introduced Jacquelyn Roberts, our new At-Large Committee member. She is replacing the position of Corinne Holder.

**5. OVERSIGHT COMMITTEE ACTIONS**

**a) Adoption of Meeting Minutes – February 22, 2021**

Kevin Bash made a motion to approve the minutes; Joy Olea seconded the motion and the committee approved the meeting minutes.

**b) Approve Meeting Dates for 2021-22**

Mr. Giles proposed the following meeting dates for the 2021-22 school year: September 13, 2021; November 15, 2021; February 28, 2022 and May 23, 2022 (Annual Report to the Board – December 14, 2021). Committee members made a suggestion to include a tour date with the meeting dates for next year. Mr. Giles and Mr. Vondriska informed the committee members that a tour will be scheduled at the September 13 meeting.

Amanda Wade made a motion to approve the 2021-22 meeting dates; Jennifer Jones seconded the motion and the committee approved the upcoming meeting dates.

**CORONA-NORCO UNIFIED SCHOOL DISTRICT**  
**MEASURE GG**  
**CITIZENS' OVERSIGHT COMMITTEE**

**6. COMMUNICATIONS OFFICE MEASURE GG VIDEO**

Mr. Vondriska presented to the committee members the new Measure GG Video that was recently released to the community and staff by the Communications office.

Mr. Giles mentioned that the Jefferson Elementary project consist of 4 new kinder classrooms, new parking lot, new admin offices, new playground, new library/media center and the replacement of 9 portable classrooms. In addition, new buildings were built taking into consideration that this site is a historical landmark and project was designed to keep that historical architectural design with the new buildings. For the Norco Intermediate modernization project, the HVAC certification project was conducted during the modernization project. The HVAC project consisted of obtaining certification of classroom units that was not obtained when initially installed. The plan is to bring a paint crew to the site to paint the older buildings to match the new buildings.

For the current projects, the Corona Fundamental project is currently in the grading process and will include a new large MPR and gym. At Washington Elementary, the project will include a new kindergarten area and a new street view. In addition to this, Mr. Giles explained that this project is estimated to be a \$10 million project but only \$7 million will be utilized from Measure GG funds. The remaining \$3 million was obtained through the sale of land in the Corona area. These funds allowed for the upgrading of the new classrooms from portables to brick and mortar classrooms. Both projects are expected to be completed by the summer of 2022.

A concern was made regarding the increased cost of lumbar and whether these increases are included in the cost of the project or if this could affect the project. Mr. Giles informed the committee that contingencies are included both on contractor and architect contracts should increases occur. These are difficult to anticipate but contingencies are set aside to help with these unexpected increases.

**7. CITIZENS' OVERSIGHT COMMITTEE REPORT by Tarana Alam, Key Analytics**

John Vondriska introduced Tarana Alam with Key Analytics. Tarana Alam presented the new report that replaces the previous Project List and Financial report. Tarana mentioned that they were tasked with analyzing the district's financial data pertaining to Measure GG funds and presenting this information in a format that is made easier to read and understand. Financial data is analyzed and reconciled serving as another audit to the financial information. Suggestions made from the committee members at the previous meeting were taken into consideration for this new report.

- On page 1 of the report, it states the history of the Bond which includes language from the ballot that was approved by voters; the dollar amount issued for each Series, including the remaining authorization that is pending in the amount of \$90.5 million; which is expected to be issued within the next year or two.
- Page 2 and 3 of the report gives an overview of the Measure GG funds, the expenditures to date, the remaining allocation, and the interest generated.
- Page 4 of the report describes the allocation by areas, the expenditures to date by areas and the remaining allocation.
- Page 5 of the report lists other funding sources used for district projects.
- Page 6 of the report lists State Funding that the district has received and future pending State Funding. The process of applying and receiving state funds was explained to the committee members. The district is currently expecting to receive in State funding approximately \$37.7 million and has eligibility for future State School Bond in the amount of \$28 million. The \$37.7 million pending will be used to cover the overages spent in the Eastvale Area.
- Page 7 of the report is a brief summary of completed projects, which includes two new school sites, roofing, fencing, security cameras and modernization/improvement projects.

**CORONA-NORCO UNIFIED SCHOOL DISTRICT**  
**MEASURE GG**  
**CITIZENS' OVERSIGHT COMMITTEE**

- Page 8 & 9 include Project and Financial information for Active projects. All changes to the report have been highlighted in yellow. The Corona Fundamental Project is less than 1% complete and should be completed in the summer of 2022. The Jefferson Elementary project is approximately 98% complete and is expected to be complete by September 2021. For the Norco Intermediate project, it is at 99% complete. For Washington Elementary, the project has been awarded and work is expected to begin in September of this year.
- For pages 10-13, the report has pictures of Measure GG projects in process.
- Pages 14-21, the report list all Measure GG completed projects by areas.
- Pages 22-28, the report lists the Measure GG project summary that includes a financial description of projects. All changes to the report have been highlighted in yellow for reviewing purposes. A concern was made in regards to these pages and as to whether the financial part will show any overages spent. As of this moment, the report only reflects the overages in the Eastvale area.

Section 2 of the report is the Technology section:

- Page 29 of the report is a brief financial summary for Information Technology by areas.
- Page 30 is information that is similar to what is presented to the Board of Education in the Annual Report made by committee members.
- Pages 31-32, the report details recently completed projects. A question was made in regards to the professional development that teachers receive with the new technology in their classrooms. Mr. Shaddox informed committee members that the first round of professional development was complete and now they are in the process of offering a second round of professional development upon request. The professional development for intermediate and high schools consists of a 20 minute training and approximately a 60 minute training for elementary. For the Extron upgrades, the District is only using one contractor. VIOP, this is the new Voice Over IP Phone system that replaces the old analog phone systems at the school sites.
- Pages 33-37 details all the Measure GG Active Projects.
- Pages 38-41 includes the project summary and financial information for the Information Technology section for all areas. All changes have been highlighted in yellow. A question was made in regards the Wifi for the FFA outdoor classrooms in Norco. This will be a Capital Facilities project and not a Measure GG Project. A question was made in regards to implementing an intercom system in classroom to amplify teacher's voices. Mr. Shaddox explained that this has been discussed and there is a process to update specific classrooms per the request. With the new projectors that have been installed and connected through the network, they include a 5-year warranty. The district has been working diligently to implement a replacement/refresh cycle not only for Extron systems but also for laptops and computers to replace devices constantly and not all at one time.

**8. ADJOURNMENT**

The meeting was adjourned at 7:47 p.m.

# Proposition 39 Citizens' Oversight Committee Purpose and Composition

September 13, 2021

**Presented by:**  
Dalia Gadelmawla  
Assistant Superintendent, Business Services

## Proposition 39

On November 7, 2000, California voters approved Proposition 39, the Smaller Classes, Safer Schools and Financial Accountability Act. The measure required a 55% voter approval and specified accountability requirements for school construction bond measures, including requirements for certain types of audits.

Proposition 39 also requires school districts that pass Proposition 39 bonds to seat a Citizens' Oversight Committee (COC) to assure the community that bond funds are expended in the fashion outlined in the district's bond resolution.

2

## Citizens' Oversight Committee

The only statutory language that addresses the COC with regard to public meetings is the following:

All citizens' oversight committee proceedings shall be open to the public and notice to the public shall be provided in the same manner as the proceedings of the governing board of the district. (Brown Act; Gov. Code 54950)

MEETING

EC 15280(b)

3

## Purpose of Committee

The purpose of the Citizen's Oversight Committee (COC) shall be:

1. to inform the public concerning the **expenditures** of bond revenues
  - COC is not granted the power to determine how bond funds may be spent
  - COC need not even be considered advisory to the Board
2. actively review and report on the proper expenditure of taxpayers' monies for school construction (Annual Report)
3. advise the public as to whether a school district is in compliance with the requirements of Proposition 39

EC 15278(b)

4

## Purpose of Committee (continued)

The Citizen's Oversight Committee shall convene to provide oversight for, but not limited to, both of the following:

- A. Ensuring that bond revenues are expended only for the purposes described in paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution, which include construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities.
- B. Ensuring that no funds are used for any teacher or administrative salaries or other school operating expenditures.

EC 15278(b)

5

## What is the Scope of COC Authority?

- Review annual, independent financial and performance audits required by Proposition 39
- Make physical visits/tours of the school buildings and grounds
- Prepare an annual report to the Board and public

6

## What is the Scope of COC Authority (continued)

- Review District efforts to maximize bond revenues through implementation of cost containment measures
  - Professional fees
  - Site preparation
  - Joint use of facilities
  - Design efficiencies
  - Reusable facilities plans

■ ■ ■ EC 15278(c)(5)

7

## Composition of Committee

The COC shall consist of at least seven members who serve for a minimum term of two years without compensation and for no more than three consecutive terms.

■ ■ ■ EC 15282(a)

8

## Composition of Committee (continued)

While consisting of a minimum of at least seven members, the COC shall be comprised as follows:

- 1) One member shall be active in a business organization representing the business community located within the school district.
- 2) One member shall be active in a senior citizens' organization.
- 3) One member shall be active in a bona fide taxpayers' organization.

EC 15278(a)

9

## Composition of Committee (continued)

- 4) One member shall be the parent or guardian of a child enrolled in the school district.
- 5) One member shall be both a parent or guardian of a child enrolled in the school district and active in a parent-teacher organization, such as the Parent Teacher Association or school site council.

EC 15278(a)

10

## Permissible Uses of Bond Proceeds

- Construction, reconstruction, rehabilitation or replacement of school facilities
- Furniture and equipment (F&E)
- Acquisition or lease of real property
- Limited to project adopted by Board before the election
- Bond issuance and preparation costs
- Costs incidental, but directly related, to bond-funded projects

September 13, 2021

# 2014 GENERAL OBLIGATION BOND MEASURE

## *Measure GG Overview*

---

On November 4, 2014, the voters of the Corona-Norco Unified School District (the “District”) authorized **Measure GG** under the Proposition 39 statutes. Measure GG authorized the issuance of **\$396 million** in General Obligation Bonds (the “Bonds”). Per the ballot language, the net proceeds of the Bonds are intended to be used to upgrade classrooms, labs and technology; repair roofs, floors and plumbing; repair, construct, acquire and equip classrooms; and improve school safety and security.

1 Corona/Unincorporated	\$211,680,000.00	\$92,198,512.04	\$119,481,487.96
2 Eastvale	77,280,000.00	101,620,647.79	(24,340,647.79)
3 Norco	47,040,000.00	42,954,918.83	4,085,081.17
4 Information Technology	<u>60,000,000.00</u>	<u>31,375,094.92</u>	<u>28,624,905.08</u>
COMBINED TOTAL:	\$396,000,000.00	\$268,149,173.58	\$127,850,826.42

# 2014 GENERAL OBLIGATION BONDS

## *Potential Additional Funding Sources for District Priority School Projects*

---

In addition to Measure GG, the Corona-Norco Unified School District continues to pursue securing other Capital Facility funding sources in order to fund its priority school projects. These funding sources include:

- ✓ **State School Facility Program Grants (SFP):** The SFP provides grants for school districts to acquire school sites, construct new school facilities, or modernize existing school facilities. The two major funding types available are “new construction” and “modernization”. The new construction grant provides funding on a 50/50 State and local match basis. The modernization grant provides funding on a 60/40 basis.
- ✓ **Community Facilities District Bonds (CFDs):** The Mello-Roos Community Facilities Act provides an alternative method for public agencies to fund facilities. The Community Facilities District ("CFD") is a financing entity through which a local government is authorized to levy special property taxes to pay debt service on bonds or to pay for the direct construction of facilities. CFD revenue is restricted to the funding of additional capacity (e.g. New Construction).
- ✓ **Developer Fees:** School districts have the ability to impose impact fees from new residential development and commercial/industrial development for the construction or reconstruction of school facilities. Developer fees are collected at the time a building permit is issued and are restricted to the funding of additional capacity (e.g. New Construction).
- ✓ **California Clean Energy Jobs Act (Proposition 39):** Prop. 39 was an energy efficiency grant program that provided funding for eligible repairs to heating, ventilation, and air-conditioning (HVAC) systems; new chillers, boilers and furnaces; new lighting and lighting control systems; Installation of energy-efficient windows, programmable thermostats, and thermal window shades; and on-site clean energy generation, such as solar photovoltaic.

# 2014 GENERAL OBLIGATION BONDS

## Potential State Grant Eligibility for Priority School Projects

The Corona-Norco Unified School District has been part of the State School Facility (SFP) grant funding program for over 20 years. Since 2000, the District has obtained over **\$340 million** in State funding. The District is currently eligible for approximately **\$37.7 million** in State modernization and new construction funding from **Proposition 51**, which was approved by the voters on November 8, 2016. The District is also eligible for an additional **\$28.1 million** in State grants from a future voter-approved State school bond.

The receipt of future State grants is predicated on: 1) the District meeting the State’s eligibility requirements; 2) the State funding amounts remaining at the current 50/50 for eligible new construction and 60/40 for eligible modernization projects; and 3) the Governor issuing State School Bonds.

**Estimated  
Prop. 51  
State Grant  
Eligibility**

Project Types	State Grants
Elementary Schools:	\$33,711,211
High Schools:	<u>1,748,850</u>
<b>CURRENT State Funding: *</b>	<b>\$35,460,061</b>

**Future State Bond  
Estimates**

<b>FUTURE State School Bond:</b>	<b>\$28,156,838</b>
<b>TOTAL Potential State Funding:</b>	<b>\$63,616,899</b>

\* These projects have met the State’s eligibility requirements and qualify to be funded from the current voter-approved Prop. 51. Funds are expected to be received when the Governor issues School Bonds periodically and the District moves up in the list of unfunded projects State-Wide.

# 2014 GENERAL OBLIGATION BONDS

## Measure GG ACTIVE Facilities Projects

The following capital facility upgrade, modernization, and expansion projects are currently underway:

Campus	Area	Total Budget Estimate	Project Scope	Status
Corona Fundamental Intermediate	Corona	\$12,483,750	The scope of the project includes a multi-purpose room/gymnasium with boys and girls' locker rooms and an indoor-outdoor stage feature to support the performing arts programs	Construction is 10% complete. The project is scheduled to be finished in the Summer of 2022
Jefferson Elementary	Corona	\$27,747,495	The scope of the project includes a new administrative building, new library, new computer lab, new classrooms and a modernized parking lot	This project is 99% complete and is expected to be finished by September of 2021
Washington Elementary	Corona	\$10,000,000 *	Add a permanent kindergarten building and modernization of the administrative offices and the playground	Construction has started and is less than 1% complete. The project is scheduled to be finished in the Summer of 2022

# 2014 GENERAL OBLIGATION BONDS

## Measure GG ACTIVE Facilities Projects

Campus	Area	Total Budget Estimate	Project Scope	Status
Jefferson Elementary	Corona	To Be Determined **	Exterior Painting of Jefferson Elementary School	This project was awarded by the Board on September 7 <sup>th</sup> and is expected to be completed by February 2022
Norco Intermediate School	Norco	To Be Determined **	Exterior Painting of Norco Intermediate School	This project was awarded by the Board on September 7 <sup>th</sup> and is expected to be completed by February 2022

- Represents the full project budget. Measure GG will be funding \$6,992,500.
- \*\* A combined paint contract amount of \$165,450 was approved by the Board for both school sites.
- Denotes changes since last report.

Information Technology Expenditures by Area

# 2014 GENERAL OBLIGATION BONDS

## *Measure GG Information Technology Projects Overview*

---

Technology updates have been part of Measure GG funding. The Measure GG technology funding is focused on infrastructure and classroom technology. The infrastructure includes data pathways, cabling, and electrical infrastructure. The classroom technology includes a complete control system that unifies the classroom digital learning environment. A total of \$60 million will be used for technology.

A total of \$37.5 million has been allocated towards the above technology installs and upgrades across the District. Installation for classroom technology is continuing and scheduled to be complete by the end of 2021/22 school year. To date, the District has finalized installation of 2,070 projectors, 365 whiteboards, and over 7,000 data drops. Elementary schools received 250 interactive whiteboards. The Educational Services department continues to provide professional development for the new technology being installed in our classrooms.
