ReadMe [Universal, FREE + in-app purchase of individual titles]	

### **About Jeremy:**

I am an elementary special education teacher with a public school system in Maryland. I teach a self-contained class of children in grades 3<sup>rd</sup> through 5th who have autism. This will be my fifth year teaching. Assistive and instructional technologies are a professional interest of mine. My students and I are fortunate to have several older generation iPhones and iPod Touches as well as two iPads for use in our classroom. These devices were purchased used off craigslist or eBay using personal funds. For many of the apps I have recommended, I was able to get promo codes from app developers in exchange for feedback.

**Have you discovered an app not on this list  
that would be beneficial for children with autism?  
Please e-mail me @ [techieteacher@gmail.com](mailto:techieteacher@gmail.com).**
