

Random Drug Testing Guideline Definitions

(Exhibit to Policy JJJA-R-1)

Definitions:

Adulterant/Adulteration - Any attempt to alter the outcome of a urine drug test by adding a substance to the sample, attempting to switch a sample, or otherwise interfere with the detection of illicit or banned substances in the urine.

Chain of Custody Form - A preprinted form provided by the testing laboratory that records all contact with the provided specimen. The form is initiated by the collector, signed by the donor and provides tamper-proof seals for the specimen. The original form is sent with the specimen to the lab.

Controlled Substance - A controlled substance is any drug or substance listed in Schedules I-V of the Colorado Controlled Substances Act of 1970. Examples include but are not limited to alcohol, marijuana, stimulants, depressants, hallucinogens, etc.

Designer Drug - A controlled substance analog is a non-controlled substance which either produces the pharmacological effect or is represented to produce pharmacological effects similar to a controlled substance in Schedule I and II of the Federal Analog Act of the Colorado Controlled Substances Act of 1970.

Drug/Mood-Altering Substance - As used in this policy shall be defined as any controlled substance, non-controlled substance, or designer drug, look-alike substance or health endangering substance.

Drug Paraphernalia - All equipment, products and materials of any kind which are used, intended for use or designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, injecting, ingesting, inhaling, or otherwise introducing to the human body a controlled substance.

Drug Program Coordinator (DPC) - The individual school principal or their designee responsible for the implementation of the substance monitoring program as outlined.

Ethyl glucuronide (EtG/EtS) - The EtG/EtS test is a urine based laboratory test that detects the metabolites of alcohol (ethyl glucuronide) in human urine.

Extracurricular Activity Participant - Any student in grades 6 to 12 participating in any non-graded, extracurricular activity. Such activities in the Monte Vista School District include but are not limited to:

Football	Golf	Volleyball	Basketball
Wrestling	Track	Baseball	Cross Country
Team Managers	Student Trainers	Cheerleading	FBLA
NHS	Science Club	Drama Productions	Student Council

GC/MS (Gas Chromatography/Mass Spectroscopy) - A scientific process to identify specific chemical compounds. A molecular fingerprint is obtained that identifies a chemical compound with one hundred percent (100%) accuracy.

Hair Follicle Drug Test – Procedure used to attain a hair specimen to be sent to a toxicology lab for screening of drugs and alcohol.

Medical Review Officer (MRO) - A medical doctor specifically trained and licensed to review positive drug and alcohol test results.

Quantitative Levels - The measurement levels of a specific chemical in the urine reported usually in nanograms per milliliter (ng/ml).

Quick-Dip Screening - An instrument designed to identify substances immediately. This instrument is less sensitive than those completed by the toxicology lab.

SAMHSA (The Substance Abuse and Mental Health Services Administration) - A governmental agency that certifies toxicology laboratories that perform drug testing following strict guidelines and constant quality assurance programs.

Scope of Tests – The drug screen tests for one or more illegal drugs and/or alcohol. The vendor shall determine which illegal drugs shall be screened, but in no event shall that determination be made after random selection of students for testing. Student samples will not be screened for the presence of substances other than an illegal drug or for the existence of any physical condition other than drug use.

School Property - This policy covers all locations under the jurisdiction of the Monte Vista School District, including away events in or out of the state of Colorado.

Toxicology Lab - Any licensed and accredited lab that specializes in detection of drugs and alcohol and provides assurance of legally defensible results.

Urine analysis - Procedure used to attain a urine specimen to be sent to a toxicology lab for screening of drugs and alcohol.

Vendor - The medical office or company selected by the Board of Education to carry out the policy and procedure.

Approved by Board of Education: 5/10/18
