- Usually, just under half of a kindergarten classroom will have some experience with a language other than English

Bilingualism in Belmont

Your registration paperwork will ask you about languages spoken in your home and by your child:

- This information helps us identify which students may need screening for academic language proficiency
- Most students who are screened do not require any additional services
- The intention of the screening, which is required by state and federal law, is to ensure that all students have equal access to education
