

Transitioning from Preschool Special Education(CPSE) to Kindergarten

Presented by: Dr. Camille Harrelson

Important dates

-
- Children who will be **five** years of age on or before December 1 are eligible to attend kindergarten starting in September of each school year.
 - Children who meet this criteria must transition to "School Age" to continue to receive their special education services.
 - June 1st, 2021: If you are electing to parentally place your child in either an additional year of preschool or a private school and you would like to request they still receive their special education services, you must alert APCSD and the 'district of location' in writing by June 1st, 2021.

Services occur in the school building

What happens before your meetings?

- Averill Park personnel will visit your child (if they are in a preschool special education program) to observe your child in his or her current educational setting and speak with their current providers.
- Averill Park personnel will talk to your child's current teacher
- There may be update testing/evaluations and will use their progress monitoring data to make appropriate recommendations for ESY and Transition to CSE
- Consent will be requested of the parents by the CSE for new or additional evaluations

Preparing For Your Meetings

Be prepared to discuss:

- How you believe your child's year has gone
- Strengths and interests
- Concerns you have as we look ahead to Kindergarten

Why classification?

- Regulations require a specific disability classification for children 5-21 who receive special education services
- Classifications are descriptors of child's area of need; not a description of who a child is.
- Classifications do not determine what services are delivered; the team developing the IEP determines services

13 CLASSIFICATIONS

- Autism
- Other Health Impairment
- Speech-Language Impairment
- Deafness
- Orthopedic Impairment
- Traumatic Brain Injury
- Deaf-Blindness
- Multiple Disabilities
- Visual Impairment
- Emotional Disturbance
- Learning Disability
- Hearing Impairment

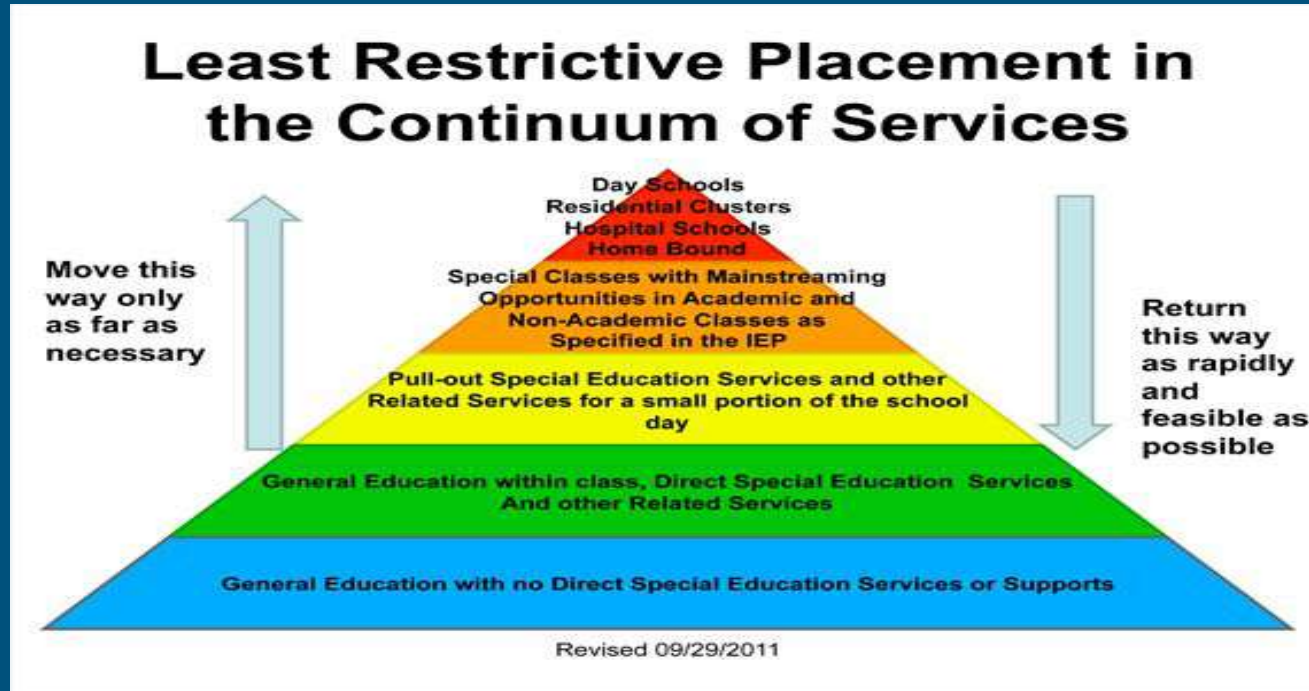

What is the difference between 'program' and 'placement'?

The program indicates the Special Education program your child requires to access the general education curriculum. The program is recommended by the Committee on Special Education (CSE) with an obligation to consider the Least Restrictive Environment based upon your child's individual needs. The placement is the location of that program; the school your child will attend.

What is Least Restrictive Environment?

Least restrictive environment means that placement of students with disabilities in special classes, separate schools or other removal from the regular educational environment occurs only when the nature or severity of the disability is such that even with the use of supplementary aids and services, education cannot be satisfactorily achieved.

Rights as a Parent

You can expect:

- To be fully informed
- To be notified about all meetings at least five school days before
- To participate in decision making
- To have all information explained
- To request a change in meeting, date, time and location, if needed
- To have confidentiality maintained
- To be able to review all school records
- To have access to mediation, due process and impartial hearing, if needed

Please remember the transition process is just that...a process...each student needs time to settle into a new environment with new friends and adults in his/her life. There are new expectations and routines to learn. Some students need a little more time to acclimate.

If your child has never been to school, is acquiring a new language, has a disability, or has any other changes going on it may be a factor in the amount of time it takes for him/her to adjust and show what they know.

Please remember to discuss any concerns with your child's teacher so that he/she can be supported most effectively

Together let's:

Collaborative communication

Planning together

share the responsibility for ensuring a quality education for your child

Respecting one another's opinion and knowledge
