Each student must display exemplary behavior including: being respectful to all students and staff as well as the building, equipment and material at all times. All assignments must be completed. Behavior and classroom performance will be reviewed at the end of each quarter to ensure student eligibility.

# Homework and Missed Assignments:

We will only assign classwork and homework that is beneficial for students to gain important skills and content knowledge to be successful this year and in the future. In case of absences during the week for students on-site, they will be expected to complete makeup work in a timely manner.

Students working virtually will be expected to have completed all assigned work by the time they arrive at school for their on-site week. Due to the nature of the 2020-2021 school year, there will be flexibility and understanding of circumstances beyond our control. However, for our students to be as successful as possible, it is important that all assignments are completed to the best of the student's ability.
