

BIOSPECTRA

BIOSPECTRA is a US based manufacturer of Life Science Intermediates, Excipients and Active Pharmaceutical Ingredients. BioSpectra offers five different grades of its materials from two manufacturing sites in Pennsylvania. Each grade of material is manufactured to meet specific end-use needs.

BIO ACTIVE GRADE products are manufactured in our Bangor, PA facility, which is registered and inspected by the Federal Food and Drug Administration, in accordance with ICH Q7 guidelines incorporating qualified equipment and utilities, validated processes and fully traceable supply chains. Type II Drug Master Files may be referenced through a supply agreement.

BIO EXCIPIENT GRADE products manufactured in accordance with ICH Q7 guidelines and **BIO PHARMA GRADE** products manufactured in accordance with IPEC guidelines are produced in our Bangor, PA and Stroudsburg, PA facilities.

Bio FUISA Grade products are intended for use in sterile applications. These products are manufactured in our Bangor, PA facility, which is registered and inspected by the Federal Food and Drug Administration, in accordance with ICH Q7 guidelines incorporating qualified equipment and utilities, validated processes and fully traceable supply chains. Type II Drug Master Files may be referenced through a supply agreement.

BIO ULTRA GRADE products ensure that our customers have access to low cost, high quality material for use in processing and research and are available under the **BioBuffer Solutions** brand.

BioSpectra's product line includes **BIOLOGICAL BUFFERS**, **AMINO ACIDS**, **CARBOHYDRATES** and a wide range of **PHARMACEUTICAL** and **BIOPHARMACEUTICAL PROCESS CHEMICALS**. Most new products come from customer and industry need. Please call if you have a need for a traceable, quality system based version of your raw material.
