

Print from Chromebook to printer

- On the Chromebook (Click on Chrome and the home icon and the top left which will bring you to our website)
- go to the Student tab and click on” Link to Google Print”
- Find the link next to the printer that you would like to print to and click on it.
- Click on Add Printer. Now you are all set up for this printer.
- On google docs, click on print, and under Destination, click on see more and you will see the printer that you just set-up
- You are all set-up now on any Chromebook
