ACTIVITIES AND ATHLETICS

Basketball

The Panther boys' and girls' basketball teams hosted the Mancos Blue Jays Tuesday night. Both varsity games were exciting and came right down to the last minute, but we came up short in the end. If you were one of the hundreds of spectators that came out and supported the teams, your help was greatly appreciated. A big shout out to the cheer team and the pep-band for ENERGY they bring to the games.

Thursday evening, the Panthers hosted Ignacio in the final home game of the regular season. It was also senior night for the basketball and cheer team members. Thanks to all who came out and showed their appreciation for the seniors. The girls played Ignacio very close for 3 quarters, but the Bobcats pulled away late. The boys team won a very close match against a very scrappy Ignacio team.

Finally, the JV teams ended their seasons on Saturday. Both the boys and girls teams played well with the girls JV team finishing 3rd and the boys team placed 4th.

How Sick is Too Sick?

When Children and Staff Should Stay Home from School or Child Care

Evaluation of a sick child must consider which diseases are currently circulating among students, staff, and the community. Known exposure to cases or an outbreak of a contagious disease (including but not limited to those listed here), even without a confirmed diagnosis, may necessitate more stringent return to school requirements.

During Colorado's ongoing response to the COVID-19 pandemic, children and staff who have symptoms consistent with COVID-19 should receive testing, and follow the [COVID-19 isolation guidance](#) until testing is completed or if they test positive. If the individual tests negative for COVID-19, the individual should then follow the recommendations for their disease or symptoms using the below guidance.

There are four main reasons to keep children and adults at home:

1. The child or staff is at risk of infecting others with COVID-19 or another contagious illness, either because of symptoms or recent close contact.
2. The child or staff member does not feel well enough to take part in usual activities. For example, a child is overly tired, fussy or will not stop crying.
3. A child needs more care than teachers and staff can give while still caring for the other children.
4. The child or staff member has symptoms or an illness is on this list, and staying home is required.

SAFE DECISIONS

Limit phone use while you're driving — turn it off if necessary. Even hands-free calling and voice texting may increase the risk of an accident.
