They will pay for this assessment. Vendors will be looking at roofs, walls, and will be testing for asbestos in all areas, as well as mold and other harmful contaminants. The goal is to get all these deficiencies remedied with funding from SFB, with SFB knowing what deficiencies we have, if there is not enough funding in their FY23 budget, they would have documentation to go back to the legislature to request more funding to get our school in a better state for our community and students.~~
