### **Grade 3**

In third grade we are very excited about our current unit in math called “Take Action with Fractions”. During this unit we will be working on developing our understanding of fractions. We will partition shapes and number lines into unit fraction and reason about the wholes and size of the fractional parts in relation to the whole.

At this point in third grade your child should have mastery of their basic addition, subtraction, multiplication, and division facts. This means that he or she should be able to complete 25 of these basic problems in a minute. With the Common Core Curriculum, your child must know these facts in order to be successful with the more complex and difficult concepts. Your child has been given another copy of the addition/subtraction chart and multiplication/division chart that he or she **MUST STUDY EVERY NIGHT**.

In reading and language arts we are continuing with our third unit in which we are reading and writing informational text for a purpose. Students will have the opportunity to read a variety of informational text, determine author’s purpose, the text structure, and the main idea and supporting details. **PLEASE BE SURE YOUR CHILD IS READING EVERY NIGHT FOR AT LEAST 25 MINUTES.**
