LEVEL  
**2** Level 2—  
Alternate

#### What are the California Alternate Assessments?

The CAAs give students the opportunity to demonstrate their learning by taking a test aligned for their grade level. Working with a teacher, Matthew was encouraged to complete items as independently as possible. Matthew had an opportunity to answer questions representing different levels of complexity, which helps to demonstrate what Matthew knows and can do. Like other California Assessment of Student Performance and Progress (CAASPP) tests, the CAAs offer accessibility resources according to the needs of each student as described in their IEP.

#### What do my child's scores mean?

There are three levels of scores for CAA ELA and CAA mathematics:

- Level 3—Alternate**
- Level 2—Alternate**
- Level 1—Alternate**

### CAA for Science Field Test

This year, students in the fifth grade participated in the 2019 field test of the California Alternate Assessment (CAA) for Science.

Like the CAAs for mathematics and English language arts/literacy, the CAA for Science will give students the opportunity to demonstrate their learning by taking a test aligned to their grade-level content. The field test is meant to evaluate test questions, as well as help students and schools become familiar with new standards and content.
