

# Wiggins Middle School Supplies

**2015-16**

Dear Parents and Students,

All content classes at sometime in the school year will be creating cumulative projects. Your student will be responsible for providing poster board, construction paper, and any type of creativity that your child chooses to use including but not limited to permanent markers, glitter, stencils, paint, etc. Any supplies that your student may choose to use must be purchased by you, as the school will not be able to provide them any longer.

In the past we have requested that you carry a large binder full of dividers and paper; however, we have realized that every student is unique. Therefore, we are letting you choose your form of organization whether that is a binder, multiple folders, an accordion style folder, or something else, please find something that will help you keep track of your homework, notes, and graded work.

The supply lists should cover at least the first semester. Please communicate with your student as the school year progresses to make sure that he/she has enough paper, writing utensils, and other materials needed to be successful in class. Remember that August usually has great school supply sales; therefore, you may want to take advantage of the great deals in order to make sure that your child will have an adequate supply of paper and writing utensils.
