Mrs. Muratori's Class

Hello 3MU families!

Here are the resources our class will be using while we are doing "school from home"!

Important Websites

Google Classroom Students should use the class code "**avlpko6**" to join "Mrs. Muratori's Class 2019-2020". This is where I will be posting all assignments and activities for your child to do and videos for your child to watch. Assignments will have due dates and they will be graded.

I Ready Students should spend an hour a day on this math program. I will be monitoring their progress daily.

Wonders Students can read and answer questions using the Wonders reading program.

* For iReady and Wonders your child will need to access each website using the Waterbury Public Schools home page. Click on students and then iReady or McGraw Hill for Wonders.

Extra Websites

Epic! This is a reading website where students can read various books, watch educational videos and take quizzes on the books they read! The class code for Epic is "rsh9895".

Prodigy This is a fun math game for students to practice learned math skills. I will be updating this weekly to be sure that students are receiving relevant mathematical concepts as they are being taught. Your child should already have a Prodigy account. If your child does not know their username or password, please contact me and I will provide you with that information!

MobyMax This website has activities for all content areas! Math, reading, writing, science, social studies, and phonics. I am able to assess anything that your child completes and assist when needed.

Contact Me
