Description of Course - These courses introduce the student to the fundamental components of music and are aligned to the State Standard for Visual and Performing Arts. In the Beginning Band and Advanced Band courses, students will perform a repertoire of musical styles on an instrument with expression, tone quality and articulation individually and in group settings. This may include compositions in double, triple, mixed and compound meters. Students will understand how music influences the various cultures of our society. Students will be required to participate in all performances. Instruments being offered include: flute, clarinet, saxophone, trumpet, horn, trombone, baritone, tuba, and percussion. In the Percussion Ensemble course, the students will read, write, and perform rhythmic notation in duple, triple, compound, and mixed meters. In the Chorus course, the students will sing a repertoire of vocal literature representing various genres, styles, and cultures.

Rational for Course -The study of music refines a student's ability to perceive aesthetically; to make connections between work, music, and the lives people live, to discuss visual, kinesthetic, and auditory relationships; to locate music in time and place; to make judgements about music and given reasons for those judgements; and to continue to search the sensory world for meaning. It cultivates an ability to imagine a world that is not now and develops a student's willingness to explore ambiguousness, multiple conceptions of the world, and multiple solutions to issues.
