

# ADVANCING MUSIC RHYTHMS #2

✓ 2 Beams on top = 16th notes.

8th notes are beamed together in groups of two. When the first is dotted, and followed by a 16th note, it is played in a "long-short" pattern.

This is how to count 16th notes. They are 4 notes on a beat, or can be other combinations.

All the note patterns above equal 1 beat! This includes:  
Four 16th notes, three note triplet, two note eights, long-short 8ths, and quarter note.
