

Belmont University, Nashville Tennessee

Belmont, located walking distance from Music Row is located in the heart of the music industry. For the student interested in song writing, performance, sound engineering or music business management, opportunities abound. Internships for freshman are not uncommon because with only 6000 students total, Belmont professors develop relationships with their students early on. Belmont also has a strong Honors Program which incorporates "Great Books" curriculum with project based learning. As a Christian college, philanthropy and community involvement are required and paramount to the overall school culture. Belmont students give back! Sports opportunities are limited, but men's basketball is revered. If you want a beautiful campus, where students are heard playing guitar in the rose gardens and southern culture and hospitality abound, this school is for you! See Mrs. Lewis-Hampton in the counseling office for further information.
