

HAMMER PARK
conceptual design alternatives

KPG
JUNE 29, 2021

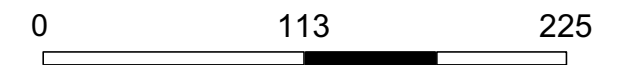

CONCEPT 1 | Sports & Fitness

An active place for people of all ages and abilities

Additional Potential Elements

- Playground
- Measured Running/Walking Circuit

HAMMER PARK | conceptual design alternatives

CONCEPT 1 | Sports & Games

An active place for people of all ages and abilities

- *Accessible pathway for running or walking around the park perimeter, connecting the more active west end to the quieter east end*
- *Multi-use courts to facilitate a variety of sports such as basketball, volleyball, tennis and other racket sports, or even hockey*
- *Covered picnic shelter/pavilion to provide shade for taking a break from the game or having a picnic lunch*
- *Fitness circuit featuring outdoor equipment for full-body workout activities such as step-ups, push-ups, pull-ups, dips, sit-ups, balance exercises, etc*
- *Flexible open lawn space that supports informal pick-up games such as soccer, ultimate Frisbee or lacrosse*
- *Small, individual picnic shelters located near the multi-use court and/or at the quieter east end of the park where people can enjoy the mountain view*
- *Prefabricated restroom located near the parking area and multi-use courts*
- *Combination of on-street angle parking and a smaller parking area within the park to meet anticipated parking demand while optimizing park space*
- *Informal screening of adjacent residences, which could include a mix of low berms, loose/open plantings, and/or low fencing such as split rail*

CONCEPT 2 | Community Backyard

A place for the community to gather

Gathering Space

Informal Screen

Community Garden

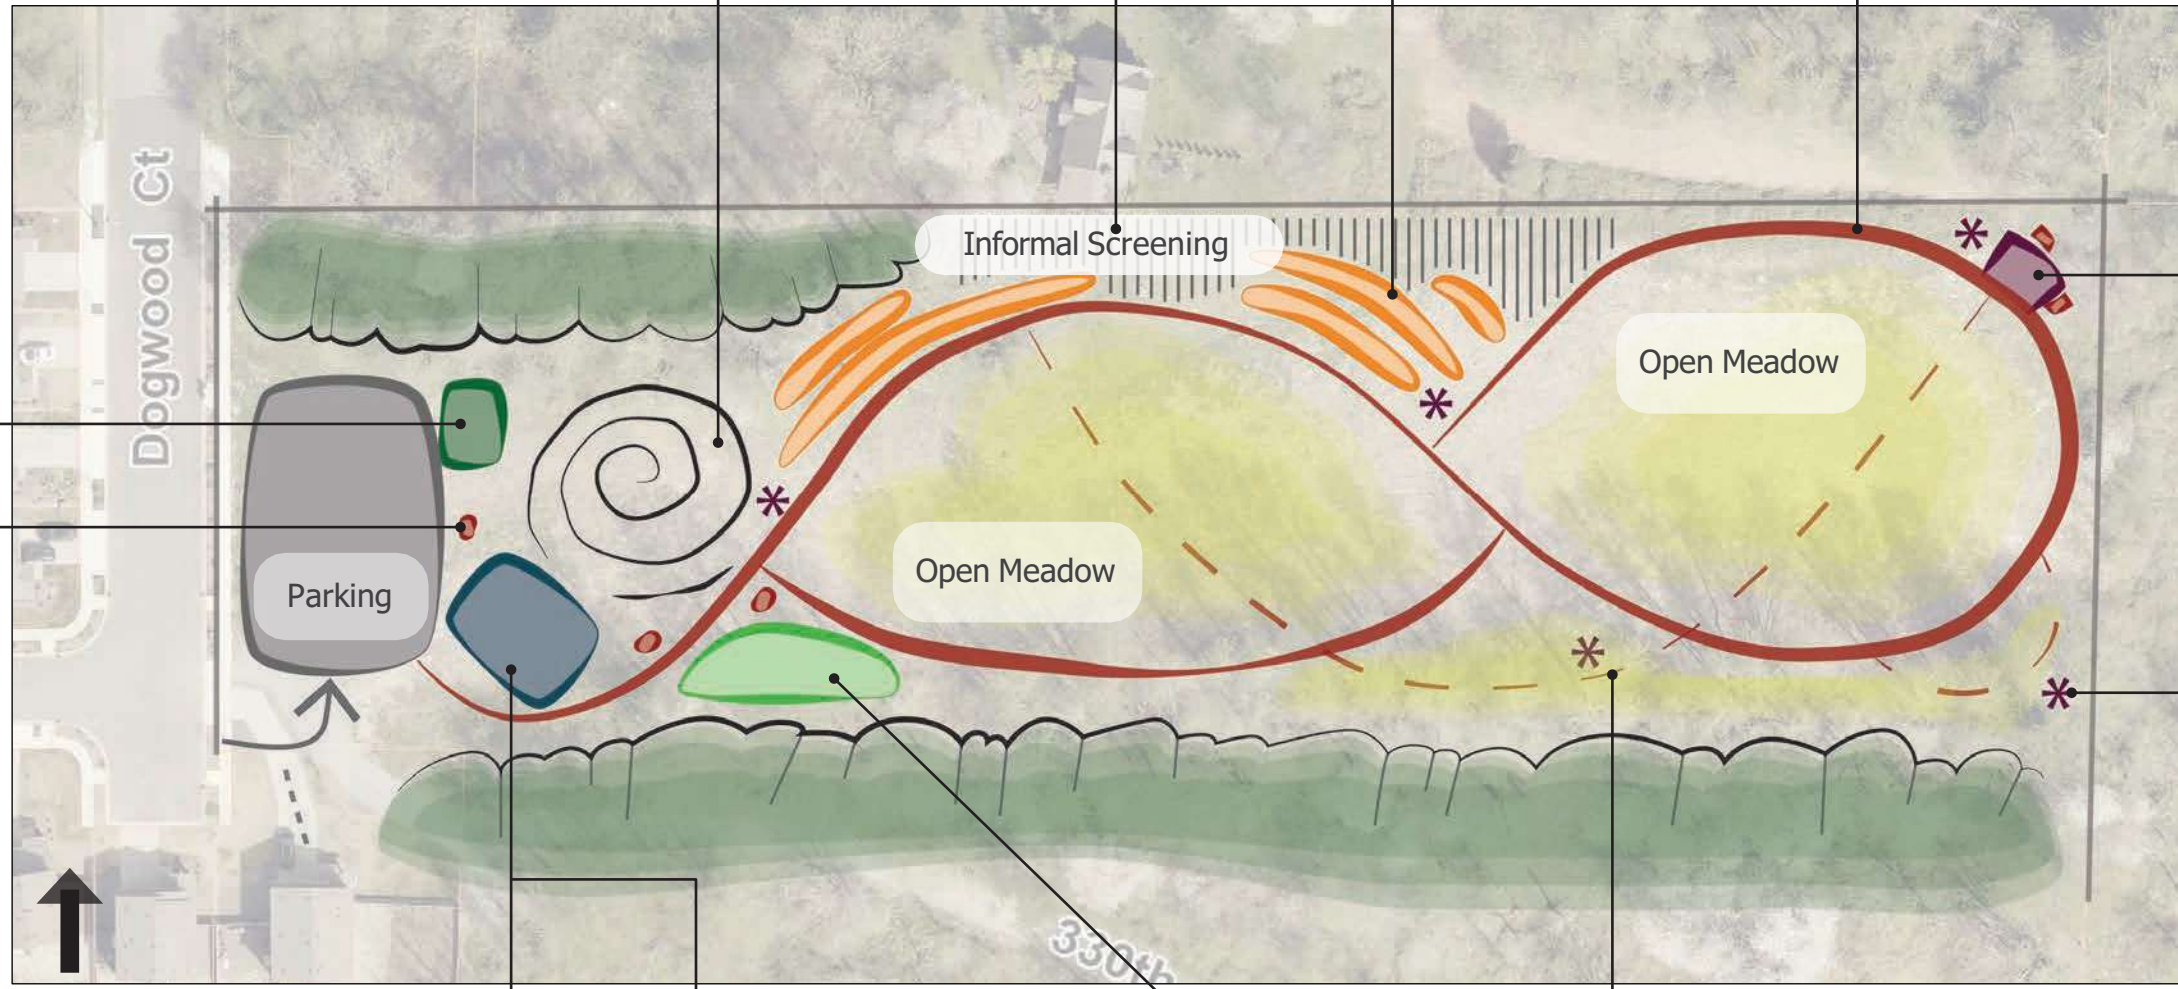

Accessible Pathway

Prefab Restroom

Outdoor BBQ

Overlook

Outdoor Music Instruments

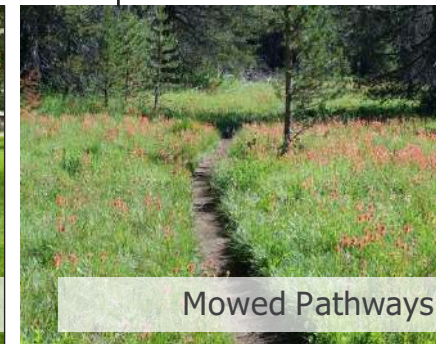

Community Table & Pavilion

Outdoor Movie Screen

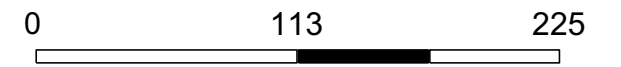

Lawn Games

Mowed Pathways

Additional Potential Elements

- Dog Off-Leash Area
- Playground

CONCEPT 2 | Community Backyard

A place for the community to gather

- *Accessible pathway around the park perimeter and through the meadow area with outdoor musical instrument installations to add an element of whimsy and discovery around the park*
- *Community gathering space to serve as the hub of the park, which could feature elements such as a fire pit, terraced seating, or even space for informal performances*
- *Covered pavilion and tables with outdoor barbecues for community dinners and/or large get-togethers*
- *Outdoor movie screen that could be integrated into the covered pavilion for community movie nights*
- *Community garden to provide opportunities for people to grow flowers or vegetables and to encourage community members to take ownership of the park space*
- *Mowed grass area for lawn games and open meadow with informal mowed pathways for exploring and enjoying the peace and quiet of nature*
- *Overlook with seating for taking in the mountain view at the east end of the park*
- *Prefabricated restroom located near the parking area and community gathering spaces*
- *Centralized parking area along the street frontage, sized to meet anticipated parking demand*
- *Informal screening of adjacent residences, which could include a mix of low berms, loose/open plantings, and/or low fencing such as split rail*

CONCEPT 3 | Summer Camp

A place for active play and exploration

Additional Potential Elements

- Tree House
- Bicycle Pump Track

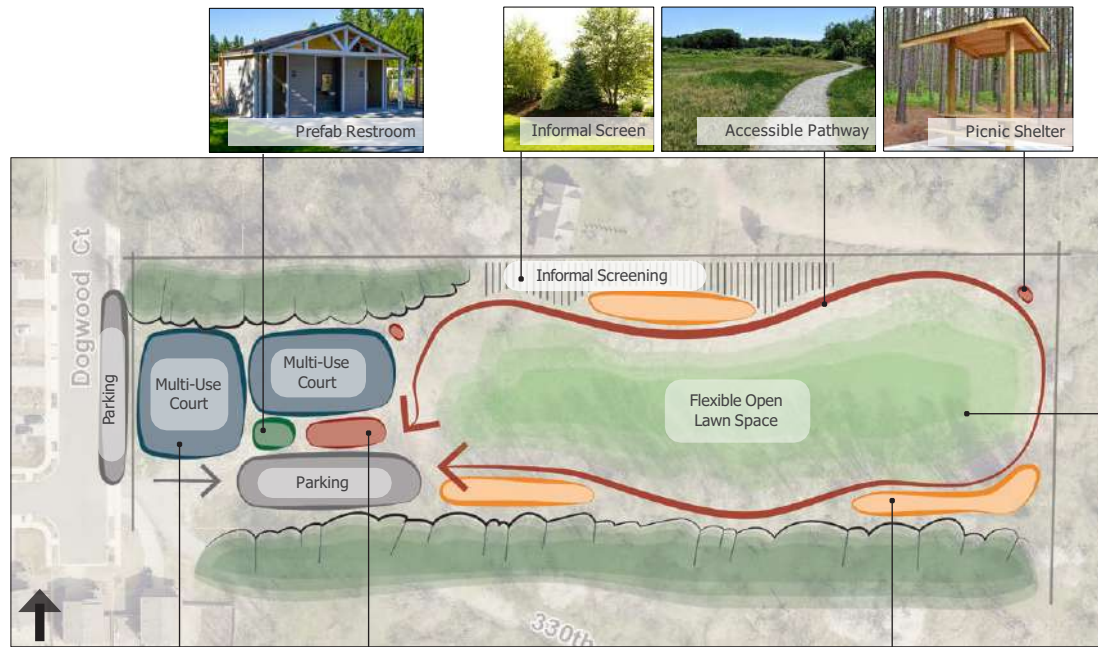

HAMMER PARK | conceptual design alternatives

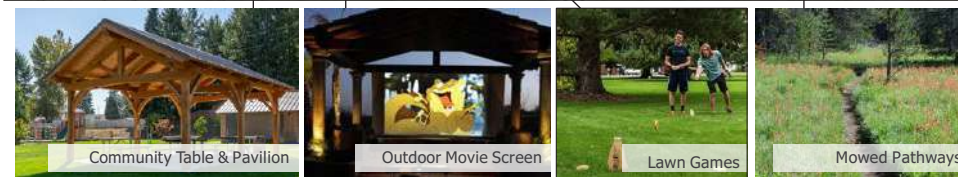

CONCEPT 3 | Summer Camp

A place for active play and exploration

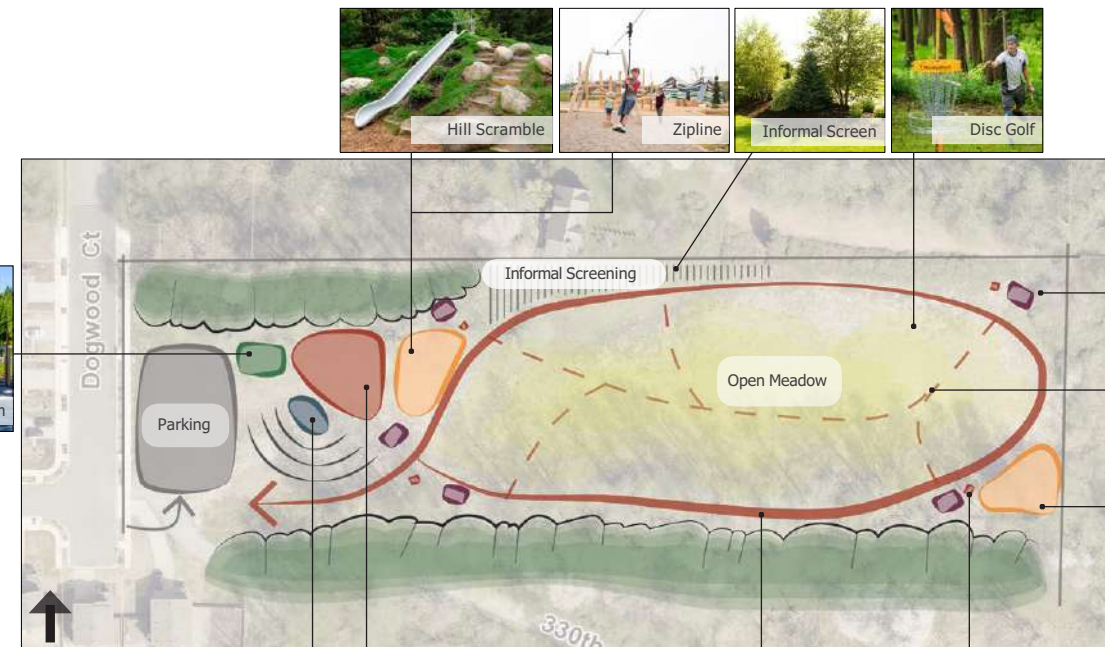

- *Accessible pathway around the park perimeter and meadow area*
- *Fire pit and stage for making s'mores, putting on impromptu plays, or gathering with friends and neighbors*
- *Playground appropriate for younger children and centrally located for easy supervision*
- *Additional play elements such as a hill scramble with climbing rocks and a slide, a free-standing zipline, or an obstacle course to provide opportunities for challenge and adventure*
- *Small, individual picnic shelters with outdoor barbecues located throughout the park*
- *Informal disc golf practice targets (2-3 total) throughout the meadow area*
- *Open meadow with informal mowed pathways that could be static or changed with each mowing for exploring and enjoying the peace and quiet of nature*
- *Prefabricated restroom located near the parking area and playground*
- *Centralized parking area along the street frontage, sized to meet anticipated parking demand*
- *Informal screening of adjacent residences, which could include a mix of low berms, loose/open plantings, and/or low fencing such as split rail*
