**FOR ALL APPLICATIONS: Do not use a TUSD issued email.** That email goes away when you graduate. It is advised that you choose a consistent email (gmail, icloud, etc.) and use that same email for all your applications. Once your application is received by a college or university, they will issue you an email and/or portal to check the status of your application. **BE SURE TO READ EVERYTHING PROVIDED TO YOU!** Get in the habit of checking your college issued emails/portals each week to see if any additional information is being requested or if there are deadlines for further documentation. Be sure to write down all your emails and passwords during the college application process. Remember, it is very difficult to change emails during this process and information may be easily lost or unable to retrieve if you change your email after an application is submitted.
