

Miss McMorrow's Parent University Math Night

Do you have questions regarding your child's math instruction? Do you feel unsure of how to best support your child's mathematical development? I want to help. You're invited to our class's Parent University Math Night.

This will be an interactive evening. You'll experience a math task, just like the ones your child experiences on a regular basis. We'll talk about how you can support this work at home.

When: Monday, November 4th

Time: 6:00 - 7:00

Where: our classroom

This is an adult-only hour. Based on the results from the parent survey many of you filled out, no childcare will be needed or provided.

(A baby in the arms is welcome, though.)
