

# VOCAL MUSIC

The students of the Vocal Music Department explore and perform music of a variety of genres. Students experience the wonder of choral singing through a collaborative process. Both The choral students perform throughout the school year providing an artistic touch to the various events here at THS. The vocal students perform a Winter & Spring Concert, a Valentine Concert as well as performing in the Tustin Community. They also perform at the winter and International Assemblies

run by the Tustin High Associated Student Body. One of the highlights of the year is the collaboration with the Theatre Arts Department and the Dance Department when all the talents are combined for a Spring Musical. The musicals are chosen by the assessment of the student talent and the availability of the production. This is an outdoor event where the community can experience the wonderful talents of the THS students in the performing arts programs.

**Tustin High provides two outlets for the vocal students through two performing organizations:  
The THS Chorale and The GLEE Club.**

## GLEE

The GLEE Club is an audition only singing organization that was created to allow students to explore the music of today's popular performers. The energy created through the creative performing process allows the GLEE performer to understand the complexity of the music of today's popular artist. By performing music that the THS students are familiar with, the GLEE Club provides a wonder of enticement where students can explore their vocal talents in a safe and positive environment. The GLEE Club has performed in numerous assemblies and concerts. They also have worked collaboratively with the Dance Department to present elaborate production numbers that move audiences to their feet! This is a fun group that performs cutting-edge music that today's students love. This group is....a cut above the rest!

## CHORALE

The Tustin High School Chorale is composed of students who work to develop the voice through proper vocal production. The music and instruction is designed to create a positive atmosphere that allows students to take risk and perform individually. Proper vowels as well as voice placement are used to create a warm and pure tone that helps to communicate the composition so that the audience not only hears the sounds, but feels the message the composer is trying to communicate. This class meets the A-G requirement for Fine Arts.

If you are interested in becoming a member of the Tustin High Vocal Music Program, please email the THS Vocal Music Director, David Henson Peay at: [dpeay@tustin.k12.ca.us](mailto:dpeay@tustin.k12.ca.us)
