

Philosophy - Unit 4 - Metaphysics

Unit Focus

Metaphysics is the branch of philosophy which focuses on what is beyond the physical world, or that which is perceived by the 5 senses. Thus, metaphysics focuses on the nature of ideas. In this unit, students will analyze and deconstruct the meanings of various ideas, attributes, and beliefs to arrive at an understanding of their true essence. To that end, students will analyze readings from Plato's Allegory of the Cave, Immanuel Kant, Franz Kafka, and others to engage in discussions on the meaning of liberty, courage, fear, existence, etc. Students will then use this acquired knowledge to defend the essence and meaning of what it means to be a student as a practical application of metaphysics.
