# ACADEMIC INITIAL-ELIGIBILITY REQUIREMENTS

Eligibility Center  
Academic Certification

# What Is A Core Course?

- ▶ A course that qualifies for high school graduation in one or more of the following: English, mathematics, natural or physical science, social science, foreign language or comparative religion or philosophy;
- ▶ Is considered four-year college preparatory;
- ▶ Is taught at or above the high school's regular academic level;
- ▶ For mathematics courses, is at the level of Algebra I or higher; and
- ▶ Is taught by a qualified instructor as defined by the appropriate academic authority.

# What are Nontraditional Courses?

- ▶ Courses taught through:
  - The Internet (online or virtual);
  - Distance learning;
  - Independent study;
  - Individualized instruction;
  - Correspondence;
  - Computer software programs; or
  - Other similar means.

# Things to Consider before Taking Nontraditional Courses

- ▶ Must include ongoing access between the instructor and student.
- ▶ Must have a defined time period for completion (i.e., six weeks).
- ▶ Should be clearly identified as nontraditional courses on the high school transcript.
- ▶ Must be four-year college preparatory and need to be comparable in length, content and rigor to courses taught in a traditional classroom setting.

# Core-Course Time Limitation

## Division I

- ▶ From the time you enter the ninth grade, you have four (4) years or eight (8) semesters to complete your core-course requirement. If you fail to complete high school "on time" in eight semesters, core courses taken after the eighth semester will not be counted toward your NCAA academic-eligibility requirements.
- ▶ "On time" also means that if your high school graduation takes place June 1, you must graduate June 1. If you do not graduate June 1 with the rest of your high school class, you have not completed your requirements "on time."

## Division II

- ▶ You are permitted to use all core courses completed from your ninth-grade year until the time you enroll full time at a college or university.

# NCAA Division I Initial-Eligibility Academic Requirements (New)

There are **new** requirements for college-bound student-athletes enrolling full time at an NCAA Division I college or university on or after **August 1, 2016**.

# Summary of Changes

3. Nonqualifier = no athletics aid, practice or competition the first year.

# NCAA Division I Qualifier:

    - Example: 640 SAT or 53 sum ACT requires core-course GPA of 2.950.

# NCAA Division I Qualifier:

## Requirements for Athletics Aid, Practice and Competition (New)

- ▶ Core-course progression.
  - Must complete **10** core courses before seventh semester of high school (e.g., senior year).
  - Of the **10** core courses completed, **seven** must be in the area of **English, math, or science**.

Academic Certification

# What about Sports Participation?

- ▶ The NCAA Eligibility Center encourages you to update your sports participation (amateurism) information often, especially if you participate in events outside of the normal high school season.
- ▶ Stay college eligible – always ask before you act!

**Tell Us About You and Your Sports**

In this section, we will ask about the teams you have been a part of, and events you have participated in.

Remember, you have confirmed that you read and understood NCAA Bylaw 10.1 about ethical conduct. So be honest and provide complete and accurate information.

First, select the sport you plan to participate in at the Division I or II level.

If you plan to participate in more than one sport, that's great. You will tell us about your participation in each sport separately. For now, get started by selecting your first sport.

Select a sport from the list below.

- Practice Player (for a Women's Sport)
- Baseball
- Football
- Men's Basketball
- Men's Cross Country

Once you are certified  
from an academic  
and amateur  
perspective,  
you may practice,  
compete and receive  
athletics aid.
