

Calculator Policy

Calculators are allowed only for some or all parts of AP Exams in these subjects: Biology, Calculus (AB/BC), Chemistry, Physics 1, Physics 2, Physics C: Mechanics, Physics C: Electricity and Magnetism, and Statistics. (Calculators are **not allowed** for any other AP Exams, including Macroeconomics, Microeconomics, and Environmental Science.) Students may bring up to two permitted calculators to the exam. Graphing calculators must be on the approved calculator list. See page 53.

Biology

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none"> * Allowed: <ul style="list-style-type: none"> ↻ Four-function calculator (with square root) ↻ Scientific (nongraphing) calculator, but must not have unapproved features or capabilities (see the list of unapproved calculators and technology on page 51) ↻ Graphing calculator 	Allowed	Allowed

Calculus AB/Calculus BC

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none"> * Graphing calculator required and expected to have built-in capability to: <ul style="list-style-type: none"> ↻ Plot the graph of a function within an arbitrary viewing window ↻ Find the zeros of functions (solve equations numerically) ↻ Numerically calculate the derivative of a function ↻ Numerically calculate the value of a definite integral ↻ If these capabilities aren't built in, the student should enter appropriate programs into the calculator before the exam * Not allowed: <ul style="list-style-type: none"> ↻ Nongraphing and other types of calculators are prohibited, even as a second calculator 	Not allowed for Part A Required* for Part B	Required* for Part A Not allowed for Part B

*"Required" indicates some questions cannot be answered without a graphing calculator and no other calculator type is permitted.

Chemistry

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none"> * Allowed: <ul style="list-style-type: none"> ↻ Four-function calculator (not recommended) ↻ Scientific (nongraphing) calculator (recommended), but must not have unapproved features or capabilities (see the list of unapproved calculators and technology on page 51) ↻ Graphing calculator 	Not allowed	Allowed

Physics 1, Physics 2, Physics C: Mechanics, Physics C: Electricity and Magnetism

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none"> * Allowed: <ul style="list-style-type: none"> ↻ Four-function calculator ↻ Scientific (nongraphing) calculator, but must not have unapproved features or capabilities (see the list of unapproved calculators and technology on page 51) ↻ Graphing calculator 	Allowed	Allowed

Statistics

Type of Calculator	Exam Section I Multiple Choice	Exam Section II Free Response
<ul style="list-style-type: none"> • Allowed: <ul style="list-style-type: none"> • Graphing calculator with statistical capabilities expected* • Scientific (nongraphing) calculator if the calculator has the required statistics computational capabilities described in the AP Statistics Course Description <ul style="list-style-type: none"> • Computational capabilities should include standard statistical univariate and bivariate summaries, through linear regression • Required capabilities may be either built in or programmed into the calculator before the exam • Graphical capabilities should include common univariate and bivariate displays such as histograms, boxplots, and scatterplots • It is up to the student to determine if the calculator meets the criteria of required computational and graphical capabilities • Not allowed: <ul style="list-style-type: none"> • Enhancements other than those that improve the calculator's computational and/or graphical functionalities are prohibited. Unacceptable enhancements include, but are not limited to, keying or scanning text or response templates into the calculator 	Expected*	Expected*

* Although scientific calculators with computational capabilities (standard statistical univariate and bivariate summaries, through linear regression) are allowed, students are expected to use a graphing calculator.

Ask AP teachers to remind students several days before the exam to:

- bring the appropriate calculator on exam day
- check the features that are required or not permitted
- check the batteries in the calculator (fresh batteries are recommended)

Teachers should refer students to apstudents.org/calculators for the most current list of approved graphing calculators. Students may bring up to two calculators to exams, but they cannot share them.

Since graphing calculators can be used to store data, including text, proctors should monitor that students are using their calculators appropriately. Attempts by students to use the calculator to remove exam content from the room may result in the cancellation of AP Exam scores. However, calculator memories do not need to be cleared before or after the exam.

For security reasons, some calculators require special instructions.

- Calculators with large display (characters of ≥ 1 " or display raised from the horizontal (tilted or hinged screen) may be visible to other students, so seat students using these calculators at the back of the testing room.
- Calculators with infrared communication capabilities are permitted. However, because data can be exchanged between these calculators if they are aligned and close together, proctors should make sure that students keep their calculators sufficiently far apart and the infrared ports are not facing each other.
- Calculators with built-in physical constants, metric conversions, and physics, chemistry, or mathematics formulas are permitted. Calculator memories do not need to be cleared before or after the exam.

- The Hewlett-Packard 48-50 Series and Casio FX-9860 graphing calculators may use memory cards designed for use with those calculators.
- The Casio FX-CG500 calculator is permitted only without the use of the stylus.

Unacceptable calculators and technology

- Phones, smartwatches, or wearable technology of any kind
- Portable/handheld computers, tablets, laptops, electronic writing pads
- Models with QWERTY (i.e., typewriter-like) keypads as part of the hardware or software (e.g., TI-92 Plus, Voyage 200)
- Models with pen-input/stylus capability (e.g., Palm, PDAs, Casio ClassPad)
- Models with wireless, Bluetooth, or cellular capability
- Models that require an electrical outlet, "talk" or make noise, or have a paper tape
- Models that can access the internet
- Models that have cell phone capability or audio/video recording or playing capability
- Models that have a camera, scanning capability, or any other smartphone-type features
- Models with touch-screen capability that aren't on the list of approved graphing calculators (e.g., Casio ClassPad)
- Hardware peripherals such as a stylus, keyboard, or wireless adapter with an approved calculator

*Unless approved by the College Board SSD Office as an accommodation

School-supplied backup calculators

It is advisable that schools have a supply of functioning AP-approved calculators with fresh batteries on exam day to provide:

- If a student arrives without a calculator
- If a student arrives with an unacceptable calculator
- If a calculator malfunctions during the administration

Call AP Services for Educators immediately if:

- A student is unable to use the offered calculator
- A student is unfamiliar with the operation of an offered calculator
- You run out of or don't have spare calculators and still have students who want and need them

NOTE: School-supplied graphing calculators must be on the approved calculator list on page 53.

Calculator Release Statement

If the option of providing a calculator isn't feasible, or if a student doesn't want to use a calculator, they can take an exam without one. However, if a student chooses to take an exam without a calculator, they must hand copy, date, and sign the Calculator Release Statement that follows and indicate the name of the exam being taken. Return the release statement in the exam shipment (see page 77).

It is my decision to take the AP [Biology] [Calculus] [Chemistry] [Physics] [Statistics] Exam without a calculator. I will not use the absence of a calculator as a reason to challenge my score on this exam.

Student Name: _____ Date: _____

Student Signature: _____ AP #: _____

* Graphing calculators with the expected built-in capabilities for AP Calculus are indicated with an asterisk. See the *AP Calculus AB and AP Calculus BC Course and Exam Description, effective Fall 2016* for details. However, students may bring any calculator on the list to the exam; any model within each series is acceptable. Only approved graphing calculators from the list are permitted for the AP Calculus Exams.

† The use of the stylus is not permitted.

This list will be updated at collegeboard.org/ap/calculators, as necessary, to include new approved calculators. Check this list periodically, and before the administration of the exams, to ensure that students have the most up-to-date information.

This list only includes approved graphing calculators. There is not an approved list of scientific (nongraphing) calculators.
