IB Program Overview

- IB is an internationally recognized program that connects academic disciplines and focuses on college and career readiness.
- It provides students with an opportunity for students to design a comprehensive program of study focused on his/her strengths Ex. Provides options in business, film, art, theater and music,
- It provides students with the opportunity to receive an internationally recognized level of distinction for taking a challenging and rigorous program of study.
- The curriculum and assessments are designed to align with college and career readiness skills such as analytical thinking, writing and metacognition.
- It is a two-year program that begins in grade 11.

IB Core Curriculum

- *IB diploma candidates must choose IB courses in each of the following five areas: English, Social Studies, Math, Science and LOTE.*
- *IB diploma candidates must also take an IB course in the Arts (Music, Theater, Visual Arts, Film) or take an additional course in one of the other five areas.*

Theory of Knowledge

Alternating day course that connects all areas of the IB curriculum model.

Focuses on critical thinking and application of knowledge

The IB Diploma Program

Additional Components

Extended Essay

In-depth independent research on a focused IB course topic of student's choice; 4000 word essay (10-15 pages) completed during a two year period

Creativity, Activity, Service (CAS)

A range of activities accompanied by a project that encourage personal development in an area of choice such as the arts, sports, or community service

The Diploma Program

Grading/Points

In addition to the course requirements, Extended Essay and CAS, 24 points are required to obtain an IB Diploma (45 max pts)

- Each course is awarded points on a scale of 1-7 by IB
- Points are earned through a combination of assessments-not just a single exam in May.
- 3 additional points can be earned through TOK/Extended Essay

IB Assessments

- IB scores are a combination of multiple assessments rather than the result of one exam in May.
- IB focuses on assessing what a student knows rather than on what they don't know. Students are provided choice in how they demonstrate their knowledge.
- Assessments have a strong alignment to skills needed for college and career readiness in the 21st century such as analytical thinking, writing and metacognition.

Common Misconceptions & Concerns

- College Recognition
- Credit for SL level classes
- Will IB classes replace AP classes?
- Does participation in the IB program create additional stress?
- What supports are in place for IB students?

College Recognition

- The IB program is widely recognized and highly respected by top colleges and universities.
-

Example:

[Binghamton University](#) recognizes schools offering the International Baccalaureate program. The International Baccalaureate curriculum is the most challenging and comprehensive curriculum available and IB participation is recommended, taken into account and considered during the application process.
