Masks

- Masks must meet district guidelines for appropriate mask material and shape.

How to wear a cloth mask properly

Wearing Gloves – if it's wet and not yours...

- When cleaning
- When changing diapers or assisting with toileting
- When feeding or assisting with feeding
- When providing any other personal care (cleaning noses, feminine hygiene, etc...)
- When administering medications
- When administering ANY first aid

Face Shield

- Worn by bus drivers, monitors, and custodial staff as appropriate
- Worn by nurses in addition to masks working one on one with students
- Worn by special needs staff in addition to masks when working one on one with students
- Worn by pre-k or k staff as appropriate in addition to masks when working one on one with students
- May be worn by staff with medical mask exemptions
- May be worn by staff member (self-purchased) if they so choose in addition to masks

Protective Gown or Covering

- Protects the wearer from body fluids
- Covers arms and torso
- Worn by nurses
- Worn by special needs, pre-k, and k staff when one on one providing assistance eating, toileting, changing, etc
- **Dispose of when dirty or visibly soiled, comes in contact with blood or bodily fluids, is physically damaged (Including broken ties and fasteners)**
- **May be re-used until need for disposal**

Hand Hygiene

As you have seen in the previous PPE videos, proper hand hygiene is a **VITAL** part of protecting yourself against bacteria and viruses, including COVID - 19
