Signing conversation compared to a verbal conversation.

The background of the slide is a photograph of the Golden Gate Bridge in San Francisco, taken at dusk or dawn. The bridge's towers and suspension cables are silhouetted against a dark blue sky with some light clouds. The water of the bay is visible in the foreground, reflecting the ambient light.

The answer(s) are.....

B & D

If you see two people having a conversation it is important that you attempt to walk around them if at all possible. When you block their view for an attended period of time a person may miss some important information/signs. If you **MUST** walk through be polite and sign excuse me. It should be a quick sign so you are not disrupting their conversation.
