

Rat Dissection

RATS

- The following slides are intended to help you with dissection of the rat and then to review for the lab practical that will follow.

Rat Dissection

RATS

- Scientific Name:
Rattus norvegicus
- Common Name: Rat
- Kingdom- Animalia
- Phylum- Chordata
- Subphylum- Vertebrata
- Class- Mammalia
- Order- Rodentia

Rat Dissection

SOURCES

- The following web sites were used to obtain various dissection pictures.

- (1) http://www.umanitoba.ca/faculties/science/biological_sciences/lab15/biolab15_1.html
- (2) <http://www.gisbornesc.vic.edu.au/home/jans/home/rat.htm>
- (3) http://www.biologycorner.com/bio3/rat_guide.html
- (4) <http://www.biologymad.com/ratphotos/ratphotos.htm>
- (5) http://www.baa.duke.edu/companat/BAA_289L_2004/heart/Rat/rat_thorax.htm
- (6) <http://instruct1.cit.cornell.edu/courses/biog105/images/ratpics/unit6/>
- (7) <http://www.victoriacollege.edu/dept/bio/RatDissection/index.htm>
This has an excellent self quiz!

Rat Dissection

ABDOMINAL CAVITY

- You should be familiar with the order of the parts of the alimentary canal. Following the path that food would take, we would pass through:

- Oral Cavity
- Pharynx
- Esophagus
- Stomach
- Pyloric Sphincter
- Small Intestine
 - Duodenum
 - Jejunum
 - Ileum
- Large Intestine
 - Cecum
 - Colon
 - Ascending Limb
 - Transverse Limb
 - Descending Limb
 - Rectum
 - Anus

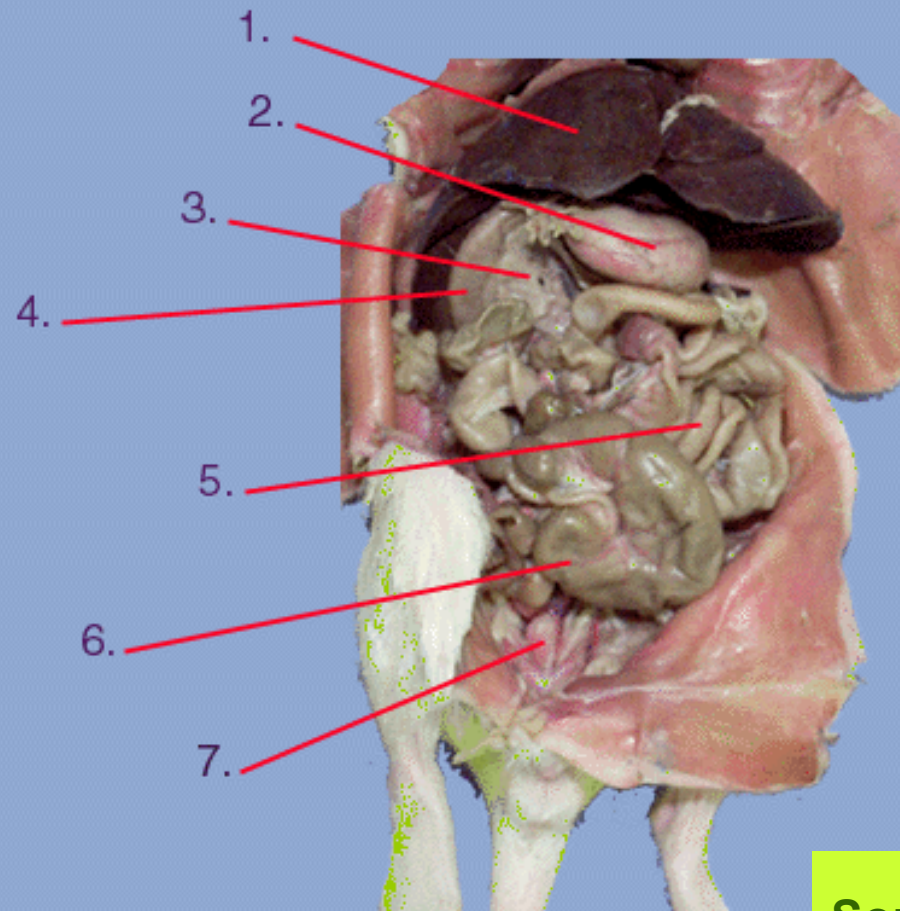

Review and Quiz Yourself

Rat Dissection

ABDOMINAL CAVITY

1. Liver
2. Stomach
3. Pancreas
4. Duodenum
5. Small Intestines
6. Cecum
7. Urinary Bladder

ANATOMICAL TERMS

NAME THAT FUNCTION-

1. Toward the midline **Medial**
2. Toward the back (upper surface of body) **Dorsal**
3. Toward the tail **Caudal**
4. Toward the side **Lateral**
5. Farthest from the point of attachment **Distal**
6. Toward the belly (underside of body) **Ventral**
7. Closest to the point of attachment **Proximal**
8. Toward the head **Cranial**

Review and Quiz Yourself

Rat Dissection

ANATOMICAL TERMS

NAME THAT FUNCTION:

1. The term referring to bending of a joint
2. The term referring to movement of an appendage toward the long axis of the body
3. The term referring to straightening of a joint
4. The term referring to movement of an appendage away from the long axis of the body

Flexion

Adduction

Extension

Abduction

Review and Quiz Yourself

Rat Dissection

ORGAN FUNCTION

NAME THAT ORGAN:

1. The whiskers, which have a sensory function
2. The flap-like external ear that directs sound waves into the ear opening **Pinna**
3. Paired openings leading into the nose **Nares**
4. Organs of the thoracic and abdominal cavities **Viscera**
5. A partition or wall separating 2 cavities **Septum**
6. A membrane which suspends the organs **Mesentery**
7. Shiny membrane that lines the abdominal cavity **Peritoneum**

Review and Quiz Yourself

Rat Dissection

ORGAN FUNCTION

NAME THAT MUSCLE

1. Abducts the thigh **Biceps Femoris** **Gluteus Maximus**
2. Extends the forelimb **Triceps Brachii**
3. Constricts the abdomen **External Obliques**
4. Closes the jaw **Masseter**
5. Adducts the thigh **Gracilis**
6. Flexes the forelimb **Biceps Brachii**
7. Draws the forelimb toward the chest **Pectoralis Major**
8. Extends the foot **Gastrocnemius**
9. Moves the forelimb dorsally + caudally **Latissimus Dorsi**

Review and Quiz Yourself

Rat Dissection

ORGAN FUNCTION

NAME THAT ORGAN:

1. Produces WBC's (White blood cells) **Thymus Gland**
2. Moves food in mouth and tastes **Tongue**
3. Organs for gas exchange **Lungs**
4. Windpipe leading from pharynx to lungs **Trachae**
5. Bony anterior roof of mouth **Hard Palate**
6. Muscular sheet that separates the thoracic and abdominal cavities **Diaphragm**
7. Incisors (biting) and molars (grinding) **Teeth**
8. Muscular posterior roof of mouth **Soft Palate**
9. Affects metabolic rate and body growth **Thyroid Gland**

Review and Quiz Yourself

Rat Dissection

ORGAN FUNCTION

NAME THAT ORGAN:

1. Produces insulin for glucose metabolism **Pancreas**
2. Aids in digestion of proteins **Stomach**
3. Food tube from pharynx to stomach **Esophagus**
4. Digests and absorbs nutrients **Small Intestines**
5. Folds in stomach that help mix food **Rugae**
6. Secretes bile, cleans blood, stores glycogen **Liver**
7. Cleans blood, removes old RBC's **Spleen**
8. Reabsorption of water **Large Intestine**
9. Blind pouch where ileum joins colon **Cecum**
10. End of intestines, compaction of feces **Rectum**

Review and Quiz Yourself

Rat Dissection

ORGAN FUNCTION

NAME THAT ORGAN:

1. Removes wastes + excess H₂O from blood **Kidney**
2. Houses developing fetuses **Uterine Horn**
3. Produces and stores sperm **Testes**
4. Stores urine before excretion **Bladder**
5. Secretes a fluid that aids sperm survival and motility **Prostate**
6. Produces eggs **Ovary**
7. Carry urine from kidney to bladder **Ureter**
8. Secretes a fluid that nourishes sperm **Seminal Vesicle**
9. Sac that holds the testes **Scrotum**

Review and Quiz Yourself

Rat Dissection

ORGAN FUNCTION

NAME THAT ORGAN:

1. Takes blood from heart to lungs **Pulmonary Artery**
2. Large veins take blood to right atrium **Vena Cava**
3. Top chambers, receive blood **Atria**
4. Membrane around heart **Pericardial Sac**
5. Artery taking blood to head **Common Carotid**
6. Bottom chambers that pump blood out **Ventricles**
7. Largest artery taking blood from left ventricle **Aorta**
8. Lower descending aorta takes blood to lower trunk and legs **Abdominal Aorta**
9. Takes blood to kidneys **Renal Artery**
