

# What is RAZ Kids? How do I log on?

RAZ Kids is a reading program where students listen to & read the animated stories and take short comprehension quiz. RAZ can also be used on tablets (iPads, Galaxy, etc.)

Log on to:

1. <http://www.raz-kids.com/main/Login>
2. Type Teacher's Username: **rpablo**

After logging on, they will click on their name/icon

After logging in, only work on 1 book at a time.

- First, listen to the book (click the ear)
- Next, read the book (click the eye)
- Finally, take the comprehension quiz (question mark)
  - If your child does not pass the quiz the first time, have them listen to the book again and try retaking the quiz.
  - If they do not pass the quiz (earning a checkmark) the second time, move on to another book. We will look at teacher side of the program and figure out what type of questions that they are missing and work on that skill at school.

Your child must read 1-2 RAZ books per week.

Please make sure your child is responsible when on RAZ Kids. Often times, students will click on the arrows without reading it. Their virtual bookroom has a wealth of non-fiction books and fiction books. It's amazing what's available to them.

Thanks for your help!
