

GRADE 5

You Won't Believe This!

What is clickbait and how can you avoid it?

PRIVACY & SECURITY

We care about
everyone's privacy.

OVERVIEW

The internet is full of catchy headlines and outrageous images, all to make us curious and get our attention. But kids don't usually realize: What you click on isn't always what you get. Show your students the best ways to avoid clickbait online.

Students will be able to:

- Define "the curiosity gap."
- Explain how clickbait uses the curiosity gap to get your attention.
- Use strategies for avoiding clickbait.

Lesson Snapshot

Estimated time: 45 mins.

Warm Up:	Which Would You Click?	10 mins.
Analyze:	What's the Curiosity Gap?	15 mins.
Evaluate:	Avoiding Clickbait	15 mins.
Wrap Up:	Is It Clickbait? Review	5 mins.

Spanish-language student and family resources available soon!

- **Lesson Slides**
- Student Handout: What's "The Curiosity Gap?" **Student Version Teacher Version**
- Student Handout: Avoiding Clickbait **Student Version Teacher Version**
- Lesson Quiz **Editable Google form Answer Key**

Take-home resources

- **Family Tips**
- **Family Activity**
- **Family Engagement Resources**

LESSON PLAN

Key Vocabulary:

advertising

messages or photos that are made to persuade someone to buy a certain product

clickbait

an image or headline that tries to get you to click on it, usually for advertising purposes

headline

the title of an article, usually printed in big, bold letters at the top

Curiosity Gap

the desire people have to figure out missing information

Warm Up: **Which Would You Click?**

10 mins.

- Project** the examples of clickbait headlines to students on **Slide 4** and ask: *Which of these headlines would you click first? Why? Take turns sharing your answer with your partner.*
- Say:** *All of these are very clickable headlines, but we're going to vote to see which headline the most people would click first. When I read each headline, raise your hand if it's the one you'd click first.*
- Read** through each example and tally the number of votes for each one. Then, reread the headline with the most votes and say: *For those who chose this one, why? What got your attention?*

Invite students to share why they'd click. Try to get them to pinpoint what information specifically they'd hope to find.
- Explain** that all of these headlines were created to try to get you to click on them. They do this using something called The Curiosity Gap. **The Curiosity Gap** is the desire people have to figure out missing information. (**Slide 5**)
- Say:** *For example, think about your favorite actor or singer. Have you ever wondered where they were born? Or what they like to do in their spare time? Why do you think you're interested in that? It's because your mind doesn't like to have missing pieces, or "gaps" in things we know about. Each of these headlines is making your brain think that there's a gap in something you already know about.*

Analyze: **What's the Curiosity Gap?**

15 mins.

- Distribute** the **What's the Curiosity Gap? Student Handout** to students and read the directions aloud. Explain that they will be looking at examples of headlines that use the curiosity gap to get your attention.
- Read** example 1 to the class, "Go Ahead and Play that Video Game: It's Might Actually Be Good for You." Ask: *How does this image and headline refer to something you already know about? Take turns sharing your ideas with your partner.*

Allow students one minute to pair-share and invite them to share out. Prompt them to identify specific words in the headline that they already have some knowledge about. As they share answers, model writing or typing them into the handout.
- Ask:** *What knowledge gap does this headline say it will fill? Take turns sharing your ideas with your partner.*

Allow students one minute to pair-share and invite them to share out. Prompt them to identify specific "holes" in their knowledge of the topic, like "why playing video games is good for you." As they share answers, model writing or typing them into the handout.
- Have** students complete the rest of the handout in pairs. (**Slide 6**)

Evaluate: **Avoiding Clickbait**

15 mins.

- Ask:** *Lots of different kinds of headlines and images use the curiosity gap to try to get you to click on them, including many news sites. But not all are the same. Some are "clickbait." What do you think the word "clickbait" means? Take turns sharing your idea with your partner.*

Allow one minute for pairs to share, and invite students to share out. Point out that the word **clickbait** is a compound word made up of "click" (following a link on the internet) and "bait" (something used to get fish to bite on a hook). These are clues to the meaning: *an online image or headline that tries to get you to click on it, usually for advertising purposes.* (**Slide 7**)
- Say:** *By getting you to "bite on the hook," or click the link, clickbait headlines help advertisers make more money. When lots of people click on a link, an advertiser gets more traffic and can charge companies more money for their ads. It doesn't matter if the people who click find what they're looking for. In fact, when you click on clickbait, it can:*
 - Potentially lead to sites you didn't want to go to. This can be confusing and frustrating!
 - Infect your device with computer viruses.
 - Lead to someone stealing your information.*So, if you come across a headline that you think might be clickbait, avoid clicking it. Instead, do a search on the headline to see if there are other sources that provide the information you're looking for.*
- Distribute** the **Avoiding Clickbait Student Handout** student handout and say: *Sometimes it can be hard to tell if a headline is just clickbait or if it is something actually worth clicking. But there are a few things you can look for. Take a look at the top of the handout.*
- Review** the directions for Part 1 and the suggestions for identifying clickbait. (**Slide 8**)

Complete the first example on the handout together. Allow students in pairs one minute to decide, and invite students to share out. Have students complete the rest of the handout in pairs.

5. **Invite** students to share out their answers for the examples on the handout. Use the **Teacher Version** to support students in using specific details from each example.
-

Wrap Up: Is It Clickbait? Review

5 mins.

1. **Direct** students to Part 2 of the **Avoiding Clickbait Student Handout** and read the directions. Allow students three minutes to write down a clickbait headline of their own, and one sentence explaining why it's clickbait. If you have more time, students can draw or find an image to accompany the headline.
 2. **Collect** handouts to assess student understanding.
 3. **Have** students complete the **Lesson Quiz**. Send home the **Family Activity** and **Family Tips**.
