

Name _____

World Civ II Research Paper

Now that you have a thesis statement, you must do research to provide **evidence** to support your argument. As you look for information on the websites made available in your Library Lessons, begin to make **note cards** with ideas that support your position. These note cards will eventually be linked to your **outline** which we will begin next week.

Using Noodle Tools, create at least **15** note cards which are to be **printed** and will be due on Monday. You will need 25 total note cards utilizing at least **five sources**. If you have difficulty with Noodle Tools, or you just like to physically move around index cards, you may write your fifteen note cards. However, it is preferable that you learn to use the Noodle Tools program.

- Information to be included in note cards:
- History of the issue
- Statistical evidence if available
- Three supporting points
- Evidence to support each point.

You can then cluster these note cards.

Remember: 15 printed note cards due on Monday. You will need a total of 25 by the end of this process. All aspects of the paper must be in **MLA format**.

Points:

Thesis statement:	25
Note Cards:	25
Outline:	25
Works Cited:	25
Completed paper:	100
Total Points:	200
