ROMAN EMPIRE TIME CAPSULE POWERPOINT

Score Sheet

Categories	Scores				
	9	8	7	6	5

1. Quality of Images
   -   presentation is organized/ slides are grouped by category
   -   image (main point) presented on slide is clear
   - there is a reason for the slide being included					

2. Clarity/depth of oral presentation - make eye contact with audience - speak clearly - knowledgeable about slide contents - provide additional information about slide contents - presentation is done in your own words					
3. Correct format (number of slides with title and bibliography) - minimum of 10 subject slides - title slide (names, title) - **bibliography slide that is created from copying and pasting from Noodle Tools formatted bibliography** - background (if used) is not distracting - notes typed in note field and printed off before coming to class to present - show merged by section and saved on P and K drives					
4. Content selected is representative of Roman Empire - images are from and/or about the Roman Empire - people, events, items describe their respective categories - main examples are not overlooked or left out					

5. Historically accurate
  - images are correctly identified
  - information about images is factually correct
