

The Roanoke Valley Governor's School for Science and Technology

Background on the School

- For the past thirty-seven years, the Roanoke Valley Governor's School has provided the surrounding region with innovative and challenging math, science, and computer technology classes.

The Basic Facts

- **Grades 9-12**
- **Students attend either morning or afternoon sessions**
- **Students are from:**
 - **Bedford County, Botetourt County, Craig County, Franklin County, Roanoke City, Roanoke County, and Salem City.**

What's Important

- A friendly environment that encourages critical thinking and independent learning.
- The relationship between teachers and students.
- Intensive hands on laboratories that stress inquiry and discovery, not memorization.
- Preparation for university studies

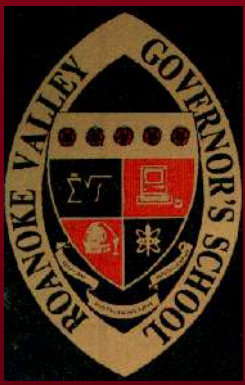

How To Prepare

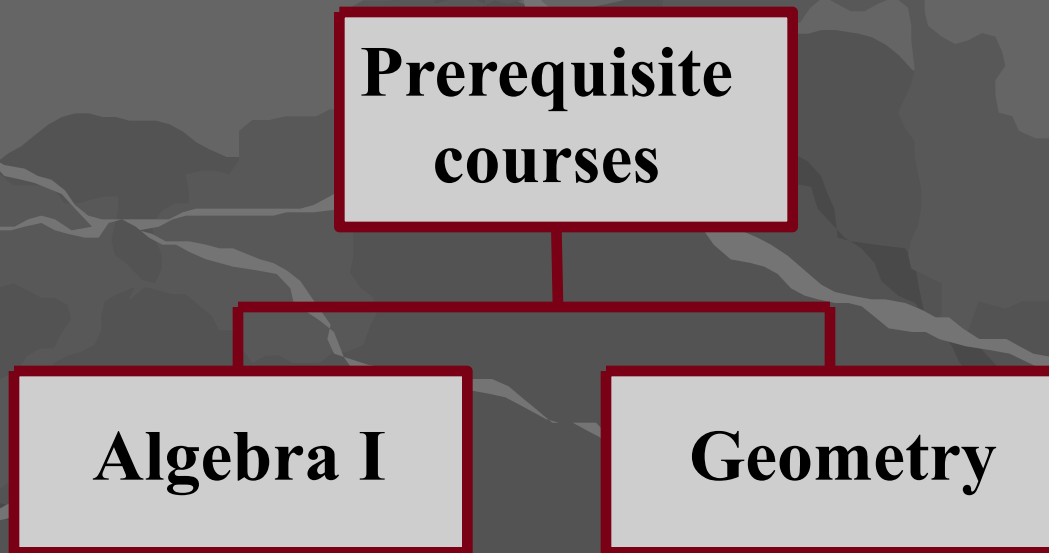

- n Demonstrate initiative in areas of science & math
- n Take challenging courses
- n Maintain a good grade point average

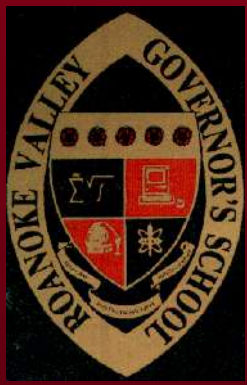

Prerequisites

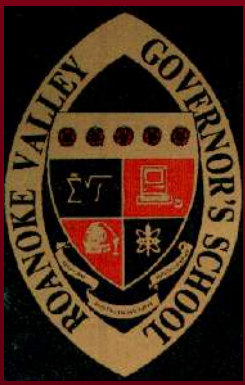

Students applying to the Governor's School will need to have completed the following courses and passed the SOL tests for those courses:

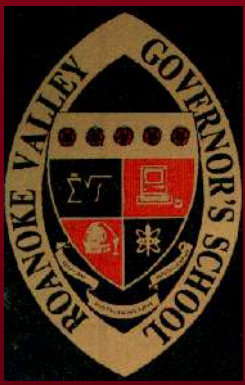

Who Should Apply?

- The application and the application process is equitable, and students are chosen based on their merit only and not on any other factors.
- RVGS is interested in actively cultivating diversity in our school.
- Any student who meets the qualifications should be encouraged to apply.
