There are 3 circles, 3 triangles and 3 squares in this grid.			
There are no squares in the 2nd row There are 2 squares in the middle column. There is a circle in the top left corner. There is a circle in the bottom right corner. There are not 3 of the same shape in any row, column or diagonal. There are 2 triangles in the middle row. There are 2 triangles in the first column.			

There are 3 squares, 3 circles and 3 triangles in this grid.

- One of the diagonals has 2 triangles in it and the other diagonal has 2 circles.
- There are 2 squares side by side in the 3rd row.
- There are no circles in the middle column.
- The shape in the middle is a triangle.
- The top row has one of each shape in it.
- There is one circle in the last column.
 - There is a triangle in the top left box.

There are 3 squares,	з circles and з triangles in this grid.			
 One column has 2 triangles in it and another column has 2 circles in it. There is a triangle in the middle of the first column. Each row has 3 different shapes in it. The shape in the middle is the same as the top right and the bottom left shape. There is a circle in the bottom right corner, but no circles in the middle column. Part of the grid looks like this: 				

One of the shapes in the grid has 6 sides. It is in a corner.
The shape in the middle of the last column has 4 sides.
The shape in the bottom left corner is a quadrilateral, but it is not a square or a rectangle.
There are 3 circles in the grid but none of them are next to each other in any row or column.
There is a hexagon in the first column.
There are 2 squares in the same column.
There is a rectangle in the middle row.
