#### **Public Notification of Non-Discrimination**

The Acalanes Union High School District (AUHSD) is committed to equal opportunity for all individuals in education. District programs and activities shall be free from discrimination based on race, color, ancestry, national origin, ethnic group identification, age, religion, actual or potential family or marital status, or the exclusion of any person because of pregnancy or related conditions, physical or mental disability, sex, sexual orientation, gender, gender identity or expression, or genetic information; the perception of one or more of such characteristics; or association with a person or group with one or more of these actual or perceived characteristics.

The AUHSD's Career and Technical Education (CTE) program does not discriminate in enrollment in or access to any of the CTE programs available. Admission to these programs is based on age appropriateness, class space, interest, aptitude, and prerequisite coursework (where applicable). The lack of English skills shall not be a barrier to admission to or participation in the District's activities and programs. The AUHSD also does not discriminate in its hiring or employment practices.

This notice is provided as required by Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, and the California Code of Regulations Title 5, Chapter 5.3 Nondiscrimination. Questions, complaints, or requests for additional information regarding these laws may be forwarded to the District's designated compliance coordinators. All AUHSD compliance coordinators can be contacted at 925-280-3900, 1212 Pleasant Hill Rd., Lafayette CA, 94549

#### **Section 504 Coordinator:**

Karen Heilbronner, Director of Special Education & Auxiliary Services

#### **Title IX Coordinator:**

Amy McNamara, Associate Superintendent of Administrative Services

#### **Title II Coordinator:**

Aida Glimme, Associate Superintendent of Educational Services

#### **CCR Title 5 Coordinator:**

Amy McNamara, Associate Superintendent of Administrative Services

#### **CTE Program Coordinator:**

Aida Glimme, Associate Superintendent of Educational Services

#### **AUHSD Graduation and College Admission Requirements**

Students are required to earn 240 credits for graduation. Ten credits are granted for successfully completing a course that meets each day for a school year; five credits are granted for a semester course.

| Subject Area                  | AUHSD Graduation Requirement<br>(ACIS has a 205 graduation credit<br>requirement – for details please visit<br>the AUHSD or ACIS website) | University of California (UC) and Cal<br>State University (CSU)                            |  |

| TOTAL                         | 240 Credits   | NA   |  |

#### **AUHSD Graduation and College Admission Requirements**

#### **University of California**

Students interested in attending one of nine University of California campuses must satisfy the following requirements:

- Complete a minimum of 15 college-preparatory courses (a-g courses) with a C or better in each course
- Earn a grade point average (GPA) of 3.0 or better in a-g courses with no grade lower than a C.
   Students who do not meet a 3.0 GPA requirement must submit SAT or ACT test scores to meet eligibility index requirements.

Students are encouraged to visit: http://admission.universityofcalifornia.edu for detailed information.

#### **California State University**

Students interested in attending one of California State University campuses must satisfy the following requirements:

- Complete a minimum of 15 college-preparatory courses (a-g courses), with at least 11 finished prior to the beginning of 12<sup>th</sup> grade.
- Earn a grade point average (GPA) or 3.0 or better in a-g courses with no grade lower than a C
- Meet the examination requirements by taking the ACT plus Writing or the SAT by December of senior year. SAT Subject Tests are no longer required but may be recommended by certain campuses or programs.

Students are encouraged to visit: www2.calstate.edu/attend/admissions for detailed information.

#### **Private College Requirements**

Private colleges do not often publish a firm list of required courses. The list of courses required by the University of California provides a guideline for the high school courses that should be taken to qualify for admission to private colleges. Many students take advantage of Advanced Placement (AP) courses offered as these courses are viewed positively by the private colleges. Many students attend private colleges each year with campus choices ranging from large, well-known universities to smaller institutions with highly-focused curricular offerings.

#### **Community College Requirements**

Community colleges provide quality, affordable educational options for students. There are 114 community colleges in the state of California and many students choose to begin their higher education at one of these institutions. At a community college, students can earn a two-year associate's degree, a certificate in a particular field, remediate their skills and improve upon their English skills among other things. First priority for student enrollment in the California Community College System is given to students who have either graduated from high school, did not complete high school by the date of their class graduation, or have reached the age of 18. Additionally, community college districts may enroll students for other reasons, such as a student being identified as highly gifted or a student's academic record demonstrating that he/she would benefit from academic enrichment.

All Acalanes Union High School District students are required by the California Community College System to have a school administrator approve any request to enroll in a community college course. Community college courses are not accepted for original credit in lieu of course required for graduation by the Acalanes Union High School District.

#### **AUHSD Graduation Requirements and Course Pathways**

- Students must earn minimum of 240 credits to graduate from Acalanes, Campolindo, Las Lomas or Miramonte High School
- Students graduating from Acalanes Center for Independent Study (ACIS) must earn 205 credits (Please visit ACIS section of the catalog for specific graduation requirements)
- Students earn five (5) credits for every semester course they complete with a "D" or better
- The following specific requirements and courses **MUST** be included (grade levels may be flexible in some areas where there is not a four-year requirement):

| Subject           | Credits | Grade 9            | Grade 10           | Grade 11            | Grade 12           |
|-------------------|---------|--------------------|--------------------|---------------------|--------------------|
| English           | 40      | English 1          | English 2          | English 3 or        | English 4 or       |
|                   |         |                    |                    | English 3 Honors or | AP Literature or   |
|                   |         |                    |                    | AP Language         | English 4 Elective |
| Mathematics*      | 30      | Math Course        | Math Course        | Math Course         |                    |
|                   |         |                    |                    | (Course may be      |                    |
|                   |         |                    |                    | Computer Sci)       |                    |

|                   |         |                    | Course             |                     |                    |
| Electives         | 65      |                    |                    |                     |                    |

<sup>\*</sup>Students must pass Algebra 1 either in middle school or high school in order to graduate. Students who have already passed Algebra 1 in middle school must pass at least 30 credits of additional math courses in order to meet the graduation requirement. Algebra A and Algebra B sequence satisfies the Algebra 1 requirement. 10 credits earned by completing a Computer Science course may be applied towards mathematics credit.

<sup>\*\*</sup> Students must complete 20 credits in the area of Physical Education. Ten (10) credits must be completed by taking the PE 9 course. Students have options in how to obtain 10 credits in addition to PE 9. Please see the PE section of the Course Catalog for detailed information.

#### **Course Selection Guidelines**

#### **Guidelines for Selecting a Course**

Students are encouraged to review the information in the Course Catalog and the course descriptions prior to signing up for a particular course. Additionally, students are encouraged to consider the following course selection guidelines when planning an overall schedule.

- 1. Graduation Requirements. Carefully check the AUHSD graduation requirements.
- 2. College Entrance Requirements. Look for courses required by many colleges and universities.
- 3. Your interests. Look for courses which might have relevance or interest to you.
- 4. **Overall course schedule.** Examine the overall rigor of selected classes.
- 5. **Parent approval.** Talk to your parents about your course choices.
- 6. **Teacher recommendation.** Talk to your teachers to determine appropriate course selection.

#### **Schedule Changes**

Master schedules and course offerings are based on student selection. The counselors inform every student, through the scheduling process, of the seriousness of their course selections. Please note that students' course schedules are not based on period requests or teacher requests.

- All 9<sup>th</sup>, 10<sup>th</sup> and 11<sup>th</sup> graders must be enrolled in at least six classes.
- 12<sup>th</sup> graders must be enrolled in at least five classes except for students enrolled in ROC/P county programs, community college courses, independent study or other courses authorized by the AUHSD Governing Board. Program enrollment must be pre-approved by the principal.
- Any course dropped after the end of the 1<sup>st</sup> quarter is a drop with an F grade.
- Students must demonstrate satisfactory educational progress in the previous grading period by maintaining a minimum 2.0 grade point average, and minimum progress toward meeting AUHSD graduation requirements and maintain satisfactory citizenship (behavior) as defined in school and district policy to be eligible for athletics and other extra and co-curricular activities.

Course changes will not be made to accommodate extra-curricular schedules, personal preferences, teacher, or period preferences. Requests to drop one class and enroll in another must be made within the first 10 days of the semester. Requests will be granted based on course capacity and availability. Students may request schedule changes based on the following reasons:

- Inappropriate course placement level for student (academic misplacement)
- Missing course for graduation requirement or course required to meet minimum college eligibility
- Change in elective class

Students are expected to select classes carefully and to maintain a firm commitment to continue enrollment in their classes once the school year begins.

#### **Counseling Department**

The counseling program is designed to assist students with academic, personal, and life-planning choices as students become increasingly self-reliant and independent during their four years of high school. Counselors work with students divided by alphabetical groups, which allows students to work with the same counselor throughout their high school career. Counselors meet with students in groups (classroom and evening presentations) and on a one-to-one basis.

Each comprehensive school site has a Wellness Center that works in collaboration with the Counseling Department and the Health Office to expand existing support services for students. Wellness support services include both direct services as well as prevention and education for students including health and wellness classroom presentations, workshops, and school-wide health education events.

Students are encouraged to contact their counselor with any questions concerning course selection and planning. At the start of the second semester counselors will provide students with an overview of the course schedule for the upcoming year. Counselors will also guide students through the planning and selection process as well as distribute and collect course request materials.

#### **College & Career Center Resources**

College and Career Center is available to all students and families for the following services.

#### **Naviance – Online Planning Resource**

Naviance is a web-based program available to all students to explore different colleges and post-high school options. The program contains important data that will help students make informed decisions when applying to colleges as well as function as a communication tool when requesting teacher recommendations letters.

#### **College and Career Center Additional Resources**

- College and university information: catalogs/reference books: two-year, four-year, in-state, out-of-state, public and private colleges
- Testing dates and registration materials: PSAT, SAT, SAT Subject Tests, ACT, Advanced Placement
- Scholarship and financial aid information and application forms
- Trade, technical and specialty school information
- Regional Occupational Program (ROP) information
- SAT and ACT prep workshop information
- Summer opportunities information
- Part-time job placement
- National Collegiate Athletics Association (NCAA) information
- Fall college representative visits

#### **College & Career Planning**

#### **College Preparatory Checklist**

The following checklist may be helpful to stay organized on the path to college. These are general guidelines and not all items are listed or applicable to everyone.

#### Freshman Year

- Visit all the resources on campus Library, Counseling Office, College & Career Center
- Establish strong study habits and time management techniques
- Participate in extra-curricular activities and work toward leadership positions. Get involved! Join clubs,
   ASB and play sports!
- Explore and participate in community service
- Meet your counselor and review your four year plan
- Register with Naviance and take some of the college/career/personality inventories
- Start a list of accomplishments or awards to be used when preparing a resume or college applications

#### Sophomore Year

- Concentrate on academic preparation and continue to develop basic skills and extracurricular interests
- Take the Practice SAT Exam (PSAT)
- Take the SAT Subject Exam in June in subjects you have completed (i.e. Biology, Chemistry)
- Attend College Fairs to learn about college entrance requirements
- Explore Naviance and do some college/career browsing
- Volunteer, work or take classes over summer
- Add to your list of accomplishments

#### Junior Year

- Take the Practice SAT Exam (PSAT)
- Register for SAT, SAT Subject, and/or ACT Exam and complete your testing by June of your junior year
- Attend fall College Fair to learn about college entrance requirements and sign-up in the College and Career Center to meet College Admission Representatives
- Continue with community service
- Research and/or visit college campuses during your vacations
- Athletes: To play college athletics you must be certified by the NCAA. Start this process in late spring of your junior year at www.eligibilitycenter.org

#### Senior Year

- Check the College and Career Center for upcoming events and important deadline information
- Decide which colleges interest you. Most college applications can be accessed through the Common Application
- Contact teachers for letters of recommendation
- Sign up in the College and Career Center for College Admission Representative
- Know the various applications deadlines and submit applications on time
- Attend Financial Aid Workshop for parents and students
- Research and apply for scholarships

#### **Alternative Program**

#### **Acalanes Center for Independent Study (ACIS)**

Acalanes Center for Independent Study, located on the Del Valle campus, offers alternative instructional programs and different diploma requirements than the comprehensive schools. It offers students a flexible daily schedule, which cannot be met by regular high school programs. ACIS offers a college preparatory program for all students. ACIS classes meet the University of California "a-g" requirements. Limited elective courses are provided for students and students may enroll in adult education, ROP or concurrently enroll in community college classes or one of the AUHSD comprehensive high schools.

Students enrolled in the ACIS program have an opportunity to take a variety of online courses in addition to the classroom based courses.

ACIS is a fully accredited high school by the Western Association of Schools and Colleges. For a full list of course offerings at the ACIS, please see the ACIS Course Offerings Summary in the Course Catalog addendum.

Acalanes Center for Independent Study Graduation Requirements (*Grade levels are suggested and may be flexible when it is not a four year requirement*)

| Subject                   | Credits | Grade 9                                       | Grade 10                                      | Grade 11   | Grade 12   |

#### **Regional Occupational Program (ROP)**

#### **Regional Occupation Program (ROP)**

The Regional Occupation Program (ROP), administered collaboratively by the Acalanes Union High School District and the Contra Costa County Office of Education, provides school-to-career preparation classes for juniors and seniors. Classes are designed to help students learn about career choices, develop job skills, and gain skills useful in college. Most classes can be taken for one or two periods, and some include internships. Students earn elective credits, and some classes offer transferable college credits. Many ROP courses fulfill University of California "a-g" subject matter entrance requirements. Students also are eligible to take ROP classes located off campus. Students must be 16 years of age to enroll in ROP classes.

#### ROP Courses anticipated to be offered in 2020-2021 in the Acalanes Union High School District

## Miramonte Computer Science (AP) Digital Photo Advanced Introduction to Engineering Principles of Engineering Sports Medicine Sports Medicine Advanced

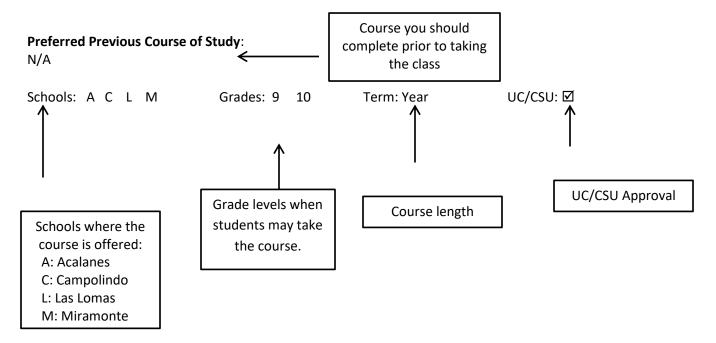

#### **AUHSD Course Offerings**

How to read the Course Catalog?

This course begins with a snapshot examination of global government systems in 1750. The course then covers a period of more than 250 years and highlights the intensification of a truly global history as people, products, knowledge, and ideas increasingly spread around the world. It examines dynamic forces such as democracy, nationalism, and economic competition and how these forces impacted the modern world. The course also considers the themes of war and conflict resolution, inclusiveness of governance, the concept of justice, and the growing importance of individual rights and liberties. The course ends with the continued evolution of a global society as shaped by globalization, terrorism, and technology.

Throughout the course, students develop reading, writing, speaking, and listening skills to enhance their understanding of the content. Students engage with history as an investigative discipline, one that is continually reshaped based on inquiry, primary and secondary source research, and multiple new perspectives. Students will gain an appreciation of history and become more informed citizens in their community, country, and the world.

#### **Career Technical Education**

AUHSD Career Technical Education (CTE) involves a multiyear sequence of courses that integrates core academic knowledge with technical and occupational knowledge to provide students with a pathway to postsecondary education and careers.

#### **Graduation Requirement**

Career Technical Education is part of the AUHSD Breadth Graduation Requirement.

#### **AUHSD CTE Graduation Requirements:**

AUHSD students must obtain 20 credits taken in any of the following areas: Career Technical Education (CTE), World Language or American Sign Language

#### Minimum UC/CSU Entrance CTE Requirement:

None

#### **AUHSD Career Technical Programs:**

Note: Courses below are offered in the Acalanes Union High School District however not all courses are offered at all sites. Please look at the course descriptions to determine if a course is offered at the specific school site.

| <b>Architectura</b> | l Design |
|---------------------|----------|
|---------------------|----------|

Architectural Design is a course in which students will express themselves visually and be able to showcase their creativity. Instruction will be given in the following areas: elements of design, architectural history, technical drafting, sketching, and computer design. The course will give the students confidence in organizing ideas and the ability to work ideas into new useful creations and reinforce concepts and ideas learned in math, art and social science.

Schools: A C L Grades: 11 12 Term: Year UC/CSU

#### **Introduction to Engineering Design**

Introduction to Engineering Design course provides a solid foundation and introduction to Engineering and Design. Students dig deep into the engineering process, applying math, science, and engineering standards to hands-on projects. They work both individually and in teams to design solutions to a variety of problems using 3-D modeling software, and use an engineering notebook to document their work.

Schools: A C M Grades: 9 10 11 12 Term: Year UC/CSU

#### **Principles of Engineering**

Principles of Engineering is a foundation course of the high school engineering pathway. This survey course exposes students to some of the major concepts that they will encounter in a post secondary engineering course of study. Through problems that engage and challenge, students explore a broad range of engineering topics, including mechanisms, the strength of materials and structures, automation, and kinematics. The course applies and concurrently develops secondary level knowledge and skills in mathematics, science, and technology. This course follows introduction to Engineering Design course and is an part of an engineering course sequence.

| Preferred Previous Course of Study:   |                     |                                     |                |              |                 |  |                   |            |

| In this course students will learn automated manufacturing concepts by creating three-dimensional designs with modeling software and producing models of their designs on computer numerically controlled machine tools. The topics covered include robotics, machine tool operating, industrial practices, tool motion, CNC programming, simulations, prototyping, and manufacturing systems. Integrated throughout the course are career technical education standards which include academics skills, communication, career planning, technology, problem solving, safety, responsibility, ethics, teamwork, and technical knowledge. This course is part of an engineering course sequence and follows Project Lead the Way Curriculum. |                     |                                     |                |              |                 |  |                   |            |

#### Foods Adv. Internat'l Cuisine

This course focuses on understanding the differences and commonalities we have with other cultures around the world. A common denominator in studying world cultures is cuisine. In studying the cuisine of a people or a region, we learn about a country's geography and climate, traditions, taboos and social mores, unique adaptations caused by environment on a food supply, pressures on a population to trade, export, import, permit a closed or open society, and cultural values. Students will acquire a greater understanding of their world and the cultural diversity that exists in their own community. This course may be offered as an ROP course.

| Work experience is a one-semester elective class combining paid employment experience with classroom instruction emphasizing an introduction to work necessary for job success and fulfillment and classroom training in employability skills. Students are employed and paid a standard wage at the job site while enrolled in a concurrent course at their high school. Students develop positive work habits, self-confidence, and job related skills which can be used to locate, secure, and retain employment in the community. Students must attend weekly related instruction meetings at their school, undertake lessons and activities, and acquire general and specific occupational skills through a combination of supervised paid employment and instruction. Regular job site visitations and supervision by the work experience coordinator is a fundamental part of the course. Students must be at least 16 years of age and concurrently employed a minimum of five hours per week in a paid position covered by workmen's compensation. Work Experience Education is only offered on the Las Lomas campus. Students at other campuses may consult with their counselor to pursue this option. |              |             |          |            |        |   |

Schools: A M Grades: 11 Term: Year UC/CSU ✓

#### **AP English Language & Composition**

The AP English Language and Composition course focuses on the development and revision of evidence-based analytic and argumentative writing, the rhetorical analysis of nonfiction texts, and the decisions writers make as they compose and revise. Students evaluate, synthesize, and cite research to support their arguments. Additionally, they read and analyze rhetorical elements and their effects in nonfiction texts—including images as forms of text— from a range of disciplines and historical periods. This course may be taken to satisfy the third year of English language requirement.

#### **English 4/WISE**

English 4 focuses on the advanced study of world literature and non-fiction, and prepares students for the rigor of college-level reading and writing. The course includes extensive writing, analysis of text, and literary criticism, as well as the development of speaking, listening and vocabulary skills. WISE emphasizes real world, outside-of—the-classroom experience and is designed for the self-motivated student. This course meets the needs of seniors interested in an alternative to the 8th semester of traditional English 4 curriculum. As the district's mission statement encourages, this course offers students the opportunity to "excel in a global society." (5 units per semester).

**Schools:** 

UC/CSU

Term: Year

#### **Mathematics**

AUHSD Mathematics courses require students to grapple with solving problems, develop abstract, analytic thinking skills, learn to deal effectively and comfortably with variables and equations, and use mathematical notation effectively to model situations.

#### **Graduation Requirement**

#### **AUHSD Math Graduation Requirements:**

30 credits of math are required for graduation.

Students must pass the equivalent of two semesters of a course of study beyond Algebra 1. Up to 10 credits may be obtained by successfully completing a computer science course.

#### Minimum UC/CSU Entrance Math Requirement:

30 credits of math (through Algebra 2) are required. 40 credits are recommended.

#### **AUHSD Math Course Sequence Options:**

The table below includes possible math sequences. For a detailed sequence of math courses please visit the AUHSD Curriculum and Instruction website. Teachers and counselors should be consulted when selecting appropriate math level placement.

Note: Courses below are offered in the Acalanes Union High School District however not all courses are offered at all

sites. Please look at the course descriptions to determine if a course is offered at the specific school site.

|----|-----|----|---|
|    |     |    |   |

Algebra A reviews, formalizes, and extends the mathematics that students learned in Common Core math 6 through 8. This course includes content standards from the conceptual categories of Number and Quantity, Algebra, Functions, and Statistics and Probability. Through the application of the Standards for Mathematical Practice, students will increasingly engage with the subject matter and grow in mathematical maturity and expertise.

| Preferred Previous Course of Study: |   |   |   |                  |       |            |          |  |

#### Algebra B

Algebra B formalizes and extends the mathematics that students learned in Common Core math 6 – 8. This course includes content standards from the conceptual categories of Number and Quantity, Algebra, Functions, and Statistics and Probability. Through the application of the Standards for Mathematical Practice, students will increasingly engage with the subject matter and grow in mathematical maturity and expertise. Completion of Algebra A and Algebra B fulfills the Algebra 1 graduation requirement.

#### **Preferred Previous Course of Study:**

N/A

Schools: A C L Grades: 10 11 12 Term: Year UC/CSU ✓

#### Algebra 1

Algebra 1 formalizes and extends the mathematics that students learned in Common Core math 6-8. This course includes content standards from the conceptual categories of Number and Quantity, Algebra, Functions, and Statistics and Probability. Through the application of the Standards for Mathematical Practice, students will increasingly engage with the subject matter and grow in mathematical maturity and expertise.

#### **Preferred Previous Course of Study:**

N/A

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU

#### **Math Applications**

Math Applications provides an alternative to the traditional study of Geometry and Algebra 2. Students will experience a highly relevant and "hands-on" approach to learning. Math Applications will incorporate selected concepts from Geometry and Algebra 2 enabling students to gain experience solving real-life mathematical problems.

#### **Preferred Previous Course of Study:**

Algebra 1

Schools: A C Grades: 11 12 Term: Year UC/CSU

#### **Financial Algebra**

Financial Algebra is a mathematical course that is algebra-based and applications-oriented. The course addresses college preparatory mathematics topics from Algebra, Statistics and Probability and more under seven financial umbrellas: Banking, Investing, Credit, Employment and Income Taxes, Automobile Ownership, Independent Living, and Retirement Planning and Household Budgeting. The mathematics topics contained in this course are introduced, developed, and applied in an as-needed format in the financial settings covered. Students are encouraged to use a variety of problem-solving skills and strategies in real-world contexts, and to question outcomes using mathematical analysis and data to support their findings.

#### Geometry

The fundamental purpose of the California State Standards Geometry course is to formalize and extend the mathematics that students learned in the middle grades. This course includes content standards from the conceptual categories of Congruence, Similarity, Right Triangles and Trigonometry, Circles, Expressing Geometric Properties with Equations, Geometric Measurement and Dimension, Conditional Probability, Rules of Probability and Using Probability and Statistics. Through the application of the Standards for Mathematical Practice, students will increasingly engage with the subject matter and grow in mathematical maturity and expertise.

#### **Preferred Previous Course of Study:**

Algebra I

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### **Geometry Advanced**

The fundamental purpose of the California State Standards Geometry Advanced course is to formalize and extend the mathematics that students learned in the middle grades. This is an accelerated, fast paced mathematics course which includes content standards from the conceptual categories of Congruence, Similarity, Right Triangles and Trigonometry, Circles, Expressing Geometric Properties with Equations, Geometric Measurement and Dimension, Conditional Probability, Rules of Probability and Using Probability and Statistics. Through the application of the Standards for Mathematical Practice, students will increasingly engage with the subject matter and grow in mathematical maturity and expertise.

#### **Preferred Previous Course of Study:**

Algebra I

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### Algebra 2

Algebra 2 complements and expands the mathematical concepts of Algebra 1 and Geometry. Topics include the real and complex number systems. Families of functions studied include: linear, quadratic, polynomial, exponential, logarithmic, rational and radical functions. Other units included are statistics, sequences and series, and the study of parabolas as conic sections. An introduction to trigonometry includes the unit circle and graphing trigonometric functions.

#### **Preferred Previous Course of Study:**

Algebra 1

Schools: A C M Grades: 10 11 12 Term: Year UC/CSU

#### Algebra 2 Advanced

The Algebra 2 Advanced complements and expands the mathematical concepts of Algebra 1 and Geometry and meets all the objectives of the Algebra 2 course. Topics include the real and complex number systems. Families of functions studied include: linear, quadratic, polynomial, exponential, logarithmic, rational and radical functions. Other units included are statistics, sequences and series, and the study of parabolas as conic sections. The curriculum in this course includes additional content intended to significantly expand students understanding of trigonometry. This includes studying circular trigonometry in greater depth, proving and applying trig identities, working with trigonometric applications and inverse trigonometry, and solving trigonometric equations. Students will frequently use models to make sense of problems in order to deepen their understanding of the concepts of Algebra 2.

#### **Preferred Previous Course of Study:**

#### Algebra 2/Pre-Calculus Honors

This accelerated course covers the Algebra 2 Advanced content, but in greater depth. In addition to the Algebra 2 topics that include real and complex numbers, families of functions and concepts of trigonometry, included are Pre-Calculus topics such as a complete study of conic sections, polar coordinates, vectors, parametric equations, and introductions to limits and derivatives. The course is designed to prepare students to take Calculus AB the following year. Students will be expected to solve higher order thinking problems and demonstrate procedural fluency in their responses.

#### **Preferred Previous Course of Study:**

Algebra 1 and Geometry

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### **Math Analysis**

The purpose of Math Analysis course is to strengthen conceptual understanding of trigonometry, graphing, probability, and algebraic techniques needed to pursue further studies in mathematics. Students will be introduced to matrices, vectors, polar graphing, conic sections, and statistics.

#### **Preferred Previous Course of Study:**

Algebra 2

Schools: A C L M Grades: 11 12 Term: Year UC/CSU

#### **Pre-Calculus Honors**

Pre-Calculus combines many of the trigonometric, geometric and algebraic techniques needed to prepare students for the study of calculus and strengthens their conceptual understanding of problems and mathematical reasoning in solving problems. This course takes a functional point of view toward these topics. Students will be introduced to matrices, vectors, polar graphing, parametric equations, conic sections, and introductory calculus topics.

#### **Preferred Previous Course of Study:**

Algebra 2 Advanced

Schools: A C L M Grades: 11 12 Term: Year UC/CSU

#### **Statistics**

This course introduces the discipline of statistics to students to provide a solid foundation in problem solving and processing statistical information. Students will leverage statistical analysis and computation using a variety of real-world problems and information from business, science, economics and other sources.

#### **Preferred Previous Course of Study:**

Algebra 2

Schools: A C L M Grades: 11 12 Term: Year UC/CSU

#### **AP Statistics**

This college level introductory course in statistics is designed to introduce students to the major concepts and tools for collecting, analyzing and drawing conclusions from data. Students interested in pursuing college majors in the social services, health services and business will benefit from this course.

#### **Preferred Previous Course of Study:**

Pre-Calculus

Schools: A C L M Grades: 10 11 12 Term: Year UC/CSU

#### **AP Calculus AB**

AP Calculus AB completes a college curriculum in variable calculus. The course focuses on developing the student's understanding of the concepts of calculus and providing experience with its methods and applications. The themes of derivatives, integrals, limits, approximation and applications and modeling are used to present a cohesive whole in the study of calculus.

#### **Preferred Previous Course of Study:**

Algebra II/Pre-Calculus Honors

Schools: A C L M Grades: 11 12 Term: Year UC/CSU

#### **AP Calculus BC**

AP Calculus BC completes a college curriculum in variable calculus. This course focuses on developing the student's understanding of the concepts of calculus and providing experience with its methods and applications. The themes of derivatives, integrals, limits, approximation and applications and modeling are used to present a cohesive whole in the study of calculus. This course also includes the study of polynomial approximations and series.

#### **Preferred Previous Course of Study:**

Advanced Placement Calculus AB

Schools: A C L M Grades: 12 Term: Year UC/CSU

#### **Introduction to Computer Science**

This course exposes students to the fundamental principles and concepts of computer science and programming. Students will learn to code through hands-on assignments which include game design, lab completion, independent projects and pair programming. This course serves as both an introduction to, and foundation for, further study in computer science.

#### **Preferred Previous Course of Study:**

N/A

Schools: A C L M Grades: 10 11 12 Term: Semester UC/CSU

#### **AP Computer Science A**

AP Computer Science A students will continue studying Java and object oriented programming methodology in preparation for the AP exam. There is an emphasis on problem solving, algorithm development, data structures, design and abstraction. While Introduction to Computer Programming is a preferred previous course of study, students who are highly motivated or who have prior programming experience or strong math backgrounds may take AP without the prerequisite year. If the school site offers this course as an ROP course, the student must be in 11th or 12th grade in order to enroll.

#### **Preferred Previous Course of Study:**

Intro to Computer Programming

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

#### **AP Computer Science Principles**

AP Computer Science Principles introduces students to the central ideas of computer science, instilling the ideas and practices of computational thinking and inviting students to understand how computing changes the world. The rigorous course promotes deep learning of computational content, develops computational thinking skills, and engages students in the creative aspects of the field. The course is unique in its focus on fostering students to be creative. Students are encouraged to apply creative processes when developing computational artifacts and to think creatively while using simulations to explore questions that interest them.

#### **Preferred Previous Course of Study:**

Introduction to Computer Programming, Pre-calculus or above

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

#### **Physical Education**

AUHSD Physical Education (PE) courses provide students with high-quality, standards-based physical education instruction and help students learn not only the skills and knowledge to be physically fit and active, but also the confidence and positive attitude necessary to participate in physical activities.

#### **Graduation Requirement**

#### **AUHSD PE Graduation Requirements:**

AUHSD students must obtain 20 credits in the area of Physical Education. All students must take PE 9.

#### Minimum UC/CSU Entrance PE Requirement:

None

#### **Additional PE requirements:**

- California State Physical Fitness Test (required for all 9<sup>th</sup> graders)
- Students must pass 5 out of 6 of the Physical Fitness Tests by the end of their 9<sup>th</sup> grade, or they are required to enroll in PE in grade 10. Students in grades 10, 11 and 12 who have not passed 5 of 6 Fitness Tests must enroll in PE and retake the tests that have not been passed.
- 20 credits of PE are required as a graduation requirement.

#### **AUHSD PE Course Sequence:**

Note: Courses below are offered in the Acalanes Union High School District however not all courses are offered at all sites. Please look at the course descriptions to determine if a course is offered at the specific school site.

| 9 <sup>th</sup> Grade | 10 <sup>th</sup> Grade | 11 <sup>th</sup> Grade | 12 <sup>th</sup> Grade |
|-----------------------|------------------------|------------------------|------------------------|
| PE 9                  | PE Elective            | PE Elective            | PE Elective            |

#### **Electives in the Physical Education Department**

Fundamentals of Yoga
PE Cardio Fitness
PE Net Sports
PE Team Sports
PE Weight Training
PE Yoga, Pilates, and Fitness Training

#### **Physical Education**

#### **California Physical Fitness Test**

Every February, AUHSD students in grade nine will participate in the required California Physical Fitness Test. The health- related fitness test is intended to help students acquire lifelong habits of regular physical activity. The fitness test includes activities for the six standards of fitness, including:

- Aerobic activity
- Body composition
- Abdominal strength and endurance
- Trunk extension strength and flexibility
- Upper body strength and endurance
- Flexibility

There are two or three options for most fitness areas so that all students have the maximum opportunity to participate. Students must meet healthy standard in 5 of 6 areas. If a student does not meet the standard, state law requires that student to be enrolled in a physical education course every semester until the student retakes the California Physical Fitness Test and meets the criteria.

#### **Physical Education Pathways**

#### Physical Education 9 (PE 9)

All students must take PE 9 to fulfill the AUHSD Graduation Requirements. Students will obtain 10 credits towards the PE graduation requirement.

#### **Physical Fitness Test (PFT)**

All students must participate in Physical Fitness Testing. Students are expected to pass 5 of 6 PFT areas.

Service Constitution of the service of the service

Students may obtain additional 10 credits in the area of PE by completing one of the following options:

- Enroll and complete a PE elective course (2 semesters, 10 credits) during 10<sup>th</sup> grade
- 2. Postpone PE course enrollment until 11<sup>th</sup> or 12<sup>th</sup> grade.
- Obtain PE credits by participating in a CIF approved sport. CIF approved sports are sports offered at the AUHSD schools. Participation in sports outside of the school cannot result in PE credit. Completion of 2 seasons of sport, with the completion of the required paperwork will result in 10 PE credits. This option is not available to 12<sup>th</sup> grade students.
- 4. Obtain PE credits by participating in 1 season of sport and one semester of PE elective course.

Student must enroll in a PE course in grade 10. This course can be any of the AUHSD PE electives.

Students will have an opportunity to retake the portions of the Physical Fitness Test which they failed on the first try. Should a student pass the testing components resulting in the overall 5 out of 6 passing score, they may obtain PE credits by completing any of the options listed to the left.

| The purpose of Athletic Physical Education is to provide options for student to engage in alternative pathways for which they can receive physical education credit towards graduation. To ensure that all students are exposed to a well-rounded Physical Education curriculum and participate in a series of state-mandated physical performance tests later in ninth grade, freshmen are not eligible to participate in Athletic PE. This program allows eligible students to gain up to 10 credits in the area of Physical Education by participating in the California Interscholastic Federation (CIF) approved sports. CIF sports are school sponsored sports and do not include sports offered outside of the school. Students gain five (5) credits for participating in a season of sport. Participating in two (2) seasons of sport will earn a student 10 credits. Students may not earn more than 10 credits through Athletic PE. The program is not available to 12th grade students. #### Science

AUHSD Science courses support the overarching goal of science education to prepare students to have appreciation of the beauty and wonder of science, instill sufficient knowledge of science and engineering, and become careful consumers of scientific and technological information related to their everyday lives as well as the ability to continue to learn about science outside the school and have the skills to enter careers of their choice in science, engineering and technology.

#### **Graduation Requirement**

#### **AUHSD Science Graduation Requirements:**

AUHSD students must pass two years of science including one year of life and one year of physical science.

\*While the AUHSD graduation requirement is for students to take 2 years of science, students are strongly recommended to take three years.

#### Minimum UC/CSU Entrance Science Requirement:

Two years of lab science; one year of life (biological) and one year of physical science. Third year is strongly recommended.

#### **AUHSD Science Course Sequence Options:**

The table below includes most commonly taken science course sequences. Science electives are often taken by many AUHSD students and are listed below the table. Students should consult with their science teachers and counselors when deciding on the appropriate science elective placement.

Note: Courses below are offered in the Acalanes Union High School District however not all courses are offered at all sites. Please look at the course descriptions to determine if a course is offered at the specific school site.

Principles of Biomedical Science

### Science

#### The Living Earth (formerly Biology)

The Living Earth course, based on the Next Generation Science Standards, explores relationships between the living and nonliving components of Earth's systems. By using science and engineering practices, cross-cutting disciplinary concepts, and evidence from experiments, research, and observations, students will learn how to formulate questions, evaluate claims, and develop models to make interpretations and investigate the natural world. Topics will include: Ecosystems Interactions and Energy, History of Earth's Atmosphere: Photosynthesis and Respiration, Evidence of Evolution, Inheritance of traits, Structure, Function, and Growth (from cells to organisms) and Ecosystem Stability and the Response to Climate Change.

The Living Earth course is replacing the Biology course and is required for graduation.

Schools: A C L M Grades: 9 10 Term: Year UC/CSU ✓

#### Chemistry in the Earth System (formerly Chemistry)

Chemistry in the Earth System, a course based on the Next Generation Science Standards, explores the way in which matter interacts, combines and changes. This course explains how chemical processes help drive the earth system. By using science and engineering practices, evidence from experiments, research, and observations, students will learn how to formulate questions, evaluate claims, use mathematics and computational thinking, and develop models to make interpretations and investigate the natural world.

#### **Preferred Previous Course of Study**

The Living Earth

Schools: A C L M Grades: 10 11 12 Term: Year UC/CSU ✓

#### Geology

The Geology course offers a comprehensive study of the earth and space sciences. Topics include a study of geology, oceanography, weather, climate and astronomy which will provide students with an understanding of Earth as a set of interconnected systems, dynamically evolving through time. The course is lab focused and will provide students with an opportunity to integrate science concepts while learning about the processes that continue to shape the Earth and our environment.

#### **Preferred Previous Course of Study**

The Living Earth

Schools: A C L M Grades: 10 11 12 Term: Year UC/CSU ✓

#### Physics of the Universe (formerly Physics)

Physics of the Universe course, based on the Next Generation Science Standards, explores major aspects of physics while integrating Earth and Space Science concepts. By using science and engineering practices, crosscutting disciplinary concepts, and evidence from experiments, research, and observations, students will learn how to formulate questions, evaluate claims, and develop models to make interpretations and investigate the physical world. Topics will include: Forces and Motion, Forces at a Distance, Energy Conservation and Renewable Energy, Nuclear Processes and Earth History, Waves and Electromagnetic Radiation, Stars and the Origins of the Universe.

#### **Preferred Previous Course of Study**

Chemistry in the Earth System

Schools: A C L M Grades: 10 11 12 Term: Year UC/CSU ✓

#### **Physiology**

Physiology is a course that examines the inner workings of the human body in terms of structure and function along with systemic relationships focusing on the tissues, integumentary, skeletal, muscular, nervous, cardiovascular, immuna, respiratory, digestive, urinary, reproductive and endocrine systems. This course will involve laboratory activities, projects, dissections, textbook material, models, diagrams, journal writings and clinical studies. Students will actively ask, find, and determine answers related to human biology in health and disease.

#### **Preferred Previous Course of Study**

The Living Earth and either Chemistry in the Earth System or Geology

Schools: A C L M Grades: 11 12 Term: Year UC/CSU

#### **Biotechnology**

Biotechnology instructs students in the laboratory techniques and basic concepts of the field of bioscience. Included are DNA labs, making gels for electrophoresis, bacteriological techniques such as plating, culturing strains of bacteria and manipulating the DNA to achieve transformation of the colonies, determining and making solutions, and microscopic techniques such as oil-emersion and staining of various types of tissue. Instruction in DNA theory, ethics, and technology and society will be included to acquaint students with this rapidly developing field. Students will conduct individual and team research projects and use effective technical writing to express the results of their work. Sound laboratory procedures and safety will be stressed. Students will use and analyze research publications and scientific literature. Opportunities for post-secondary education will be explored and students will gain a broad awareness of both scientific and technologial career paths. This course may be offered as an ROP course.

#### **Preferred Previous Course of Study**

The Living Earth and either Chemistry in the Earth System or Geology

Schools: A C Grades: 11 12 Term: Year UC/CSU ✓

#### **Engineering & Applied Physics Honors**

Engineering and Applied Physics covers topics generally covered in an introductory college engineering course. The course provides an introduction to the engineering profession. Introductory material in chemical, mechanical, aerospace, electrical, computer, civil and biomedical engineering will give the students an appreciation of the diversity of the field. Students will perform a variety of structured activities and will be expected to complete a final project that integrates topics learned throughout the year.

#### **Preferred Previous Course of Study**

Chemistry in the Earth System and Algebra 2/Pre-Calculus Honors

Schools: A L Grades: 11 12 Term: Year UC/CSU ✓

#### **Environmental Science**

Environmental Science is an elective integrated science course which provides students with the scientific principles, concepts, methodologies and experiences required to understand the inter-relationships of the natural world, identify and analyze both natural and man-made environmental problems, evaluate risks associated with these problems, and to examine alternative solutions for resolving and/or preventing these problems. This is a lab course. Students utilize modern technological equipment as well as the campus as a living laboratory.

#### **Preferred Previous Course of Study**

The Living Earth and either Chemistry in the Earth System or Geology

Schools: A C Grades: 11 12 Term: Year UC/CSU ✓

#### **Principles of Biomedical Science**

Principles of Biomedical Science course provides students with an introduction to biomedical science through exciting hands-on projects and problems. Students investigate concepts of biology and medicine as they explore health conditions including heart disease, diabetes, sickle-cell disease, hypercholesterolemia, and infectious diseases. Students will practice problem solving with structured activities and programs to openended projects and problems that require them to develop planning, documentation, communication and other professional skills. The course is designed to provide an overview of all the courses in the biomedical science program and lay the scientific foundation for subsequence courses.

| <b>Preferred</b> | <b>Previous</b> | Course | of Study |
|------------------|-----------------|--------|----------|
|------------------|-----------------|--------|----------|

N/A

Schools: L Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### **Human Body Systems**

Human Body Systems course builds upon knowledge gained in the Principles of Biomedical Science and is a course where students examine the interactions of human body systems as they explore identity, power, movement, protection, and homeostasis (balance) in the body. Exploring science in action, students build organs and tissues, use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration; and take on the roles of biomedical professionals to solve real-world medical cases.

#### **Preferred Previous Course of Study**

The Living Earth, Algebra 1, Principles of Biomedical Science

Schools: L Grades: 10 11 12 Term: Year UC/CSU ✓

#### **Analytical Forensic Science**

In this class, emphasis is on understanding the underlying scientific theories of forensic science. The class will build upon the student's prior knowledge of biology and chemistry, using analytical chemistry techniques to analyze and identify trace evidence, including DNA. Students will evaluate the constituents of materials by organic, inorganic, and biochemical analysis, and use their academic and laboratory skills to develop a deeper understanding of science.

A sound foundation in the scientific principles underlying the laboratory techniques is crucial to the education of a forensic scientist. This class prepares students to further their science education at the university level, and introduces them to the possibilities of a science related career. Integrated throughout the course are career preparation standards which include basic academic skills, communication, interpersonal skills, problem solving, workplace safety, technology and employment literacy.

#### **Preferred Previous Course of Study**

The Living Earth and Chemistry in the Earth System

Schools: L Grades: 11 12 Term: Year UC/CSU

#### **AP Biology**

AP Biology generally includes topics regularly covered in a college biology course for science majors. The two main goals of AP Biology are to help students develop a conceptual framework for modern biology and to help students gain an appreciation of science as a process. The primary emphasis in the course is on developing deep understanding of biological concepts and unifying themes. The course will promote scientific inquiry and apply biological knowledge to environmental and social concerns.

#### **Preferred Previous Course of Study**

The Living Earth and Chemistry in the Earth System

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

#### **AP Chemistry**

This course is designed to be the equivalent of the general chemistry course taken during a student's first years in college. Successful students will attain a depth of understanding of fundamentals and a reasonable competence in dealing with chemical problems. The course will contribute to the development of a student's abilities to think clearly and to express ideas, orally and in writing, with clarity and logic. The course emphasizes chemical calculations and the mathematical formulation of principles with the appropriate supportive labs provided for students.

#### **Preferred Previous Course of Study**

Chemistry in the Earth System and Algebra 2/Pre-Calculus Honors

Schools: A C L M Grades: 11 12 Term: Year UC/CSU

#### AP Physics 1

This course is the first of a two-year course sequence. AP Physics 1 is equivalent to the first semester of a typical introductory, algebra-based, college physics course. It covers Newtonian Mechanics, waves and basic electricity and circuits. Students will have time to gain a greater depth of conceptual understanding through the use of inquiry-based practice. Students will learn important science process skills such as explaining casual relationships, applying and justifying the use of mathematical routines, designing experiments, analyzing data, and making connections across multiple topics within the course.

#### **Preferred Previous Course of Study**

Chemistry in the Earth System and Algebra 2/Pre-Calculus Honors

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

#### **AP Physics 2**

This course is the second of a two-year course sequence. AP Physics 2 is equivalent to the second semester of a typical introductory, algebra-based, college physics course. It covers electricity and magnetism, thermodynamics, fluids, and modern physics. Students will have time to gain a greater depth of conceptual understanding through the use of inquiry-based practice. Students will learn important science process skills such as explaining casual relationships, applying and justifying the use of mathematical routines, designing experiments, analyzing data, and making connections across multiple topics within the course.

#### **Preferred Previous Course of Study**

AP Physics 1 or Physics

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

#### **AP Physics C: Mechanics**

AP Physics C: Mechanics is equivalent to a one-semester, calculus-based, college level physics course, especially appropriate for students planning to specialize or major in physical science or engineering. The course explores topics such as kinematics; Newton's laws in motion; work, energy and power; systems of particles and linear momentum; circular motion and rotation; and oscillations and gravitation. Introductory differential and integral calculus is used throughout the course.

#### **Preferred Previous Course of Study**

Physics and/or Chemistry in the Earth System and Algebra 2 Advanced

Schools: L Grades: 11 12 Term: Year UC/CSU ✓

#### **AP Environmental Science**

AP Environmental Science provides students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. Environmental Science is interdisciplinary; it embraces a wide variety of topics from different areas of study. If the school site offers this course as an ROP course, the student must be in 11th or 12th grade in order to enroll.

#### **Preferred Previous Course of Study**

Algebra 1, The Living Earth and either Chemistry in the Earth System or Geology

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

#### **Social Science**

AUHSD Social Science courses prepare students for college, careers, and civic life by developing their understanding of the geography, encouraging their participation in our democratic system of government, teaching them about our past, informing their financial choices and improving their ability to make reasoned decisions based upon evidence.

#### **Graduation Requirement**

#### **AUHSD Social Studies Graduation Requirements:**

AUHSD students must obtain 30 credits by passing World History and Geography, United States History, and Government and Economics.

#### Minimum UC/CSU Entrance Social Studies Requirement:

Two years of social science; World History and United States History.

#### **AUHSD Social Science Course Sequence Options:**

AUHSD students are required to take World History, Culture and Geography (grade 9); US History (grade 11) and Government/Economics (grade 12). There is no required social science course in grade 10 however many AUHSD students elect to take a social studies elective.

Note: Courses below are offered in the Acalanes Union High School District however not all courses are offered at all sites. Please look at the course descriptions to determine if a course is offered at the specific school site.

### **Social Science**

#### World History, Culture & Geography

This course begins with a snapshot examination of global government systems in 1750. The course then covers a period of more than 250 years and highlights the intensification of a truly global history as people, products, knowledge, and ideas increasingly spread around the world. It examines dynamic forces such as democracy, nationalism, and economic competition and how these forces impacted the modern world. The course also considers the themes of war and conflict resolution, inclusiveness of governance, the concept of justice, and

#### **Global Studies**

Global Studies introduces students to the world by investigating modern issues in different parts of the globe and investigating the broader scale of those issues. Students will analyze the geographic, cultural, political, and historical aspects of the issues and apply them on a global scale. The course includes studies on wealth and poverty, the environment, migration/immigration, global conflicts/terrorism, and media literacy as well as breaking news/breaking world events. The course will encourage students to develop critical thinking skills through identifying long-term implications of both past and present events. Students will be required to read, discuss, debate, analyze, work in groups, and think critically on a variety of topics.

#### **Introduction to Psychology**

Psychology is the study of the behavior and thought of humans and other animals. Although it has been a topic of intellectual conjecture for centuries, psychology as a standard academic discipline is less than 150 years old. In that time it has branched off in many areas of specialization that address such issues as the development of children, the motivation of athletes, the best way to treat substance abuse, how people form memories, etc. This course is an introduction to the basic subfields within psychology. We will be researching famous psychologists, investigating contemporary examples of psychological phenomena, discussing experiences, and forming hypotheses about how and why people and animals think and behave.

#### **Preferred Previous Course of Study:**

Schools: C Grades: 10 11 12 Term: Semester UC/CSU ✓

#### **Contemporary Issues & Public Policy**

This course encourages critical thought on contemporary issues and is divided into the following areas: Life and Health Issues, Discrimination Issues, Constitutional Issues, Global Issues, Cultural Issues and Frameworks, Public Speaking and Persuasive Writing Skills, and Connections, Conflicts, and Meaningful Solutions. Each area of study includes a film that relates to the general issue. It will provide students an opportunity to identify and evaluate political, cultural, and economic issues on a local, state, national, and international level. A variety of current news media are used to help students learn how contemporary social issues affect them and an emphasis is placed on their role as constructive citizens in an interdependent world.

#### **Preferred Previous Course of Study:**

N/A

Schools: A C L Grades: 10 11 12 Term: Year UC/CSU ✓

#### Law and Society

Law and Society will involve students actively in conflict resolution through traditional legal models as well as alternative models of problem solving. Content will include the scope of traditional American law (criminal, tort, consumer, family, housing, and individual rights) as well as concepts and comparisons using international legal situations. Global law will be stressed. Problem-centered curriculum, rather than a content-centered base, will promote critical analytical thinking. Mock trials, simulations, and role-playing will be dominant modes of interaction. Socratic dialogue will engage the student actively in the classroom.

Schools: C L M Grades: 10 11 12 Term: Year UC/CSU ⊌

#### **Law 2 Honors**

This course will focus on the 20th century America and the history of investigation. Students will know how the American society, political systems, the criminal justice system, and specifically the investigation process for crimes function within a global context. Students will understand and appreciate the diversity in America and the world community. There will be a specific emphasis on critical thinking skills which includes Socratic seminar, national and international crime scene investigations, and a Model United Nations project focusing on international crimes and issues. There will be an additional focus on forensics, and evidence; specifically how technology has revolutionized all major criminal investigations throughout the global community.

#### **AP US History**

AP U.S. History is designed to provide students with the analytical skills and factual knowledge necessary to deal critically with the problems and materials in a college-level United States history course. Students will learn to assess historical materials including their relevance to a given interpretive problem, their reliability, and their importance, as well as to weigh the evidence and interpretations presented in historical scholarship.

#### **Preferred Previous Course of Study:**

World History

Schools: A C L M Grades: 11 Term: Year UC/CSU

#### **AP Government & Politics Comparative**

This course introduces students to fundamental concepts used by political scientists to study the processes and the outcomes of politics in a variety of country settings. AP Comparative Government and Politics aims to illustrate the rich diversity of political life, to show available institutional alternatives, to explain differences in processes and policy outcomes, and to communicate to students the importance of global political and economic changes. (Taken with one semester of Economics)

#### **Preferred Previous Course of Study:**

| Art 2 emphasizes visual problem solving and personal expression through which students continue to develop skills and knowledge of artistic perception, art history/cultural context and aesthetic valuing skills. Students continue to develop their drawing, painting, and printmaking skills. Students create original artworks, using new and traditional media and techniques, as well as keeping a sketchbook/journal, doing outside gallery visits and reviews, and oral and written critiques of student, historical and contemporary artists. Students also are required to maintain portfolios of all their projects/assignments. |                                 |                                  |                                 |   |  |     |              |       |                    |   |                                |                              |

#### **Independent Art Portfolio**

Students work at an advanced skill level in producing an independent portfolio of two-dimensional and/or three-dimensional works. Students choose an artistic concern/theme to serve as the focus of their work. Students are required to collaborate with the teacher to do outside gallery visits and reviews, as well as oral and written critiques of historical and contemporary artists.

#### **3D ART 2**

Students in 3-D Art 2 will participate in the next series of sequential learning experiences building upon skills/and techniques experienced in 3D Art 1. Media include wood, metal, plaster, clay, fibers and mixed media. An emphasis of the course is on developing a conceptual approach to studio practice, including further developing analytical and critical thinking skills, exploring art historical precedents, and effective communication skills. Additionally, second-year students will begin a concentration in a material or process of their choice.

#### **Preferred Previous Course of Study:**

3D Art 1

Schools: A L M Grades: 10 11 12 Term: Year UC/CSU ✓

#### **3D ART 3**

3D Art 3 students participate in the design and creation of original works of 3-D art with a concentration in materials or processes of their choice. Students will plan, implement and produce a significant portfolio of their own work. Students also will continue to explore in greater depth the works of specific artists, movements or cultural styles while further developing critical thinking and communication skills. Students will curate a show of their own work and/or others' work.

#### **Digital Photography Advanced**

In this second-level photography course students will achieve the five major Standards of the California Arts curriculum at an expert or more proficient level. The course will provide students with opportunities to extend and advance their knowledge and skills in the field of photography. This course will familiarize the student with advanced photographic equipment, materials, methods and the digital processes. Also, students will focus on the history of photography and photographers studying and emulating a variety of photographic styles. This course may be offered as an ROP course.

#### **AP Studio Art: 2D Photo**

This course is designed to develop student mastery in the concept, composition and execution of their two-dimensional works in photography and 2-D design. Students will have the opportunity to produce a two-dimensional portfolio fulfilling the requirements as set by The College Board for Studio Art AP. The portfolio has specific requirements which include: Section I--Quality, excellence demonstrated in original art works; Section II--Concentration, an in-depth, personal commitment to a particular artistic concern; Section III--Breadth shows a variety of experiences in using the formal, technical and expressive means available to an artist.

#### **Preferred Previous Course of Study:**

Digital Photography Advanced

Schools: C Grades: 11 12 Term: Year UC/CSU ✓

#### Digital Design 1

Co-enrollment with DVC (earn college credit through DVC). Digital Design 1 students study traditional art and design principles while using new media (computers, digital cameras, scanners, etc.) to produce their own original design projects. In this hands-on studio class, students learn to use the computer as a tool to draw illustrations, manipulate graphics, and create a broad range of design projects.

#### **Preferred Previous Course of Study:**

Schools: A L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### **Digital Design 2**

Students in this second-level digital design course demonstrate an advanced understanding and appreciation of artistic expression to produce digital design projects. Using professional grade software, students use design principles, typography, and desktop publishing, as well as advanced skills and techniques to visually communicate meaning and imagination. This course may be offered as an ROP course.

#### **Preferred Previous Course of Study:**

Digital Design 1

Schools: A L M Grades: 10 11 12 Term: Year UC/CSU ✓

#### **Video Production 1**

Video Production 1 is a college-preparatory, interdisciplinary approach to the visual arts. This course builds on student's proficiency in photography, creative writing, and design concepts. The class integrates research and writing techniques with artistic creation and expression as outlined in the California Visual and Performing Arts Framework. Students achieve an advanced understanding and appreciation of video used as a tool in artistic expression. Students integrate, create and communicate artistic design using video production techniques.

#### **Video Production 2**

Video Production 2 is organized around the five major standards of the California arts curriculum. Students will study and research film genres in order to understand the complexity of video art and its role in film history. As each standard is introduced, students will apply and practice the principles learned in that standard through a major course project. Each project will require the application of sophisticated videography techniques as outlined in the arts standards. The course projects will be included in the student's cumulative portfolio.

#### **Preferred Previous Course of Study:**

Video Production 1

Schools: A C Grades: 10 11 12 Term: Year UC/CSU ✓

#### **Video Production 3**

Video Production 3 is an advanced video studies course that will draw upon the advanced video editing techniques learned in Video Production 1 and 2 while investigating new areas uncovered in the lower levels. Students will analyze the power of advertising by researching advertising techniques, target audiences and a variety of ads, learning to identify specific advertising techniques. They will examine the personal vision and belief systems of directors, specifically how a director incorporates political and religious beliefs into a film narrative. Also, students will analyze the changing treatment of race and gender in film and television through the years, reflecting upon how their depiction reflects the attitudes of society; study specific video techniques, such as set lighting, acting methods for the camera, differing video editing styles of diverse directors, and manipulation of more difficult software, including Garage Band, Adobe Go Live, Final Cut Pro, MPEG Streamclip, Adobe Image Ready, and Audacity.

#### **Preferred Previous Course of Study:**

Video Production 2

#### Drama 1

Drama 1 offers the new and continuing theatre student the opportunity to gain experience in dramatic arts through acting, technical theatre, and an exploration of theatre within an historical and cultural context. The student will develop skills in creative self-expression using a variety of methods. The student also will evaluate the informal and formal works of their own and others through both discussion and writing. The course provides an opportunity to develop competence in problemsolving, communication skills, self-confidence, and self-discipline contributing to life-long learning and career skills.

#### Stagecraft

This year of study is devoted to developing a firm foundation in technical theatre. We will be studying all technical aspects of the production process. Units of study will include dramaturgy, design, set construction, props, lighting, sound, costume and make-up, and theater management. Students must pass an OSHA theater safety test in the first weeks of the course before operating equipment. Because of the nature of technical theatre this class requires 35 hours, minimum, after-school work per semester.

Schools: A L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### Oral Interpretation

Oral Interpretation is the art of reading, researching, analyzing, interpreting, and performing through the use of voice and body. This course will offer students opportunities to interpret published works as well as to study rhetoric to create and enhance their own works for performance. Students also will be critically assessing and analyzing oral interpretations by professional performers and speakers. The course offers students an opportunity to perform outside the classroom at community and school-sponsored events. This course teaches life-time skills in a performance-based setting.

#### **Musical Theater Workshop**

Musical Theatre Workshop is an exploration of American Musical Theatre. Students will study the work of the actor/singer/dancer and use their gained knowledge to develop as performers. Students will prepare and present as soloists as well as members of small groups and larger ensembles. Since this is a workshop course, students will prepare material for class presentation and write critiques. There will also be a focus on the audition process as well as musical theatre history and repertoire.

#### **Symphonic Band**

**Schools:** 

A C L

Μ

Symphonic Band performances introduce the more qualified instrumentalist to advanced and challenging band literature of several styles and musical periods. The band performs for several school and community activities throughout the year and offers a wide range of musical and social activities. The preparation process is the important component of the program, in that the performance of each student in the instrumental class is critically important to, and affects the performance of, every other student in the class. Students must have prior experience on a woodwind, brass or percussion instrument.

UC/CSU

Term: Year

### **World Languages**

AUHSD World Language courses include a diverse and rich offering of languages other than English. Taking advantage of one of the numerous language offerings in AUHSD allows students an opportunity to acquire a second language and as a result sharpens their intellectual skills, increases their earning power and broadens their cultural understanding.

#### **Graduation Requirement**

World Language is part of the AUHSD Breadth Graduation Requirement.

#### **AUHSD World Language Graduation Requirements:**

AUHSD students must obtain 20 credits taken in any of the following areas: Career Technical Education (CTE), World Language or American Sign Language

#### Minimum UC/CSU Entrance World Language Requirement:

Two years of the same world language, third year recommended.

#### **AUHSD World Language Offerings**

Note: Courses below are offered in the Acalanes Union High School District however not all courses are offered at all sites. Please look at the course descriptions to determine if a course is offered at the specific school site.

American Sign Language (ASL) is currently not offered as a classroom-based course at the AUHSD comprehensive schools sites. Students may take ASL for AUHSD credit only with counselor and administrative approval. The course must be offered through the school district, not an outside organization. ASL courses taken through programs without appropriate pre-approval may not count towards AUHSD graduation requirement.

### **World Languages**

#### French 1

This introductory course in foreign language provides students who have no prior training in the language an opportunity to develop basic listening, speaking, writing, and reading skills. In addition to functional language skills, students are provided an introduction to the culture of countries whose language they are studying.

#### **Preferred Previous Course of Study:**

N/A

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### French 2

This second-year language course enables students to develop intermediate proficiency in the language skills of listening, speaking, writing, and reading. Students also develop an increasing awareness of the idiomatic aspects of language, and continue to study the culture of countries using the language.

#### **Preferred Previous Course of Study:**

French 1

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### French 3

The third-year French language course enables students to develop high-intermediate proficiency in language skills of listening, speaking, writing and reading. Students will develop an increasing awareness of the idiomatic aspects of language, begin to study the literature and continue to study the culture of countries using the language.

#### **Preferred Previous Course of Study:**

French 2 or equivalent experience

Schools: A C L M Grades: 10 11 12 Term: Year UC/CSU ✓

#### French 4 Honors

The fourth-year French course enables students to develop advanced proficiency in the language skills of listening, speaking, writing, and reading. Students will use idiomatic aspects of language, and continue to study the literature and the culture of countries using the language.

#### **Preferred Previous Course of Study:**

French 3 or equivalent experience

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

#### **AP French Language & Culture**

Students who enroll in AP French Language & Culture should have a solid command of French grammar and vocabulary and have competence in listening, reading, speaking, and writing. This course emphasizes the use of language for active communication and helps students develop the ability to understand spoken French in various contexts, master an ample vocabulary while non-reliant on a dictionary, and demonstrate coherent expression in written and spoken French.

#### **Preferred Previous Course of Study:**

French 4

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

In addition to functional language skills, students are provided an introduction to the culture of countries whose language they are studying.

#### **Preferred Previous Course of Study:**

N/A

Schools: L Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### Japanese 2

This second-year language course enables students to develop intermediate proficiency in the language skills of listening, speaking, writing, and reading. Students also develop an increasing awareness of the idiomatic aspects of language, and continue to study the culture of countries using the language.

#### **Preferred Previous Course of Study:**

Japanese 1

Schools: L Grades: 10 11 12 Term: Year UC/CSU ✓

#### Japanese 3

This third-year Japanese language course enables students to develop advanced proficiency in the language skills of listening, speaking, writing, and reading. Students will use idiomatic aspects of language, and continue to study the culture and literature of Japan using the language.

#### **Preferred Previous Course of Study:**

Japanese 2 or equivalent experience

Schools: L Grades: 11 12 Term: Year UC/CSU ✓

#### Japanese 4 Honors

This fourth-year Japanese language course enables students to develop advanced proficiency in the language skills of listening, speaking, writing, and reading. Students will use idiomatic aspects of language, and continue to study the culture and literature of Japan using the language.

#### **Preferred Previous Course of Study:**

Japanese 3 or equivalent experience

Schools: L Grades: 11 12 Term: Year UC/CSU ✓

#### Latin 1

Latin 1 is an introductory course in which students begin the study of the Latin language, Roman culture, Roman mythology, and the Latin roots of modern European languages.

#### **Preferred Previous Course of Study:**

N/A

Schools: M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### Latin 2

Latin 2 is an intermediate course in which students develop intermediate level knowledge of Latin language, Roman culture, Roman mythology, and the modern European languages.

#### **Preferred Previous Course of Study:**

Latin 1

Schools: M Grades: 10 11 12 Term: Year UC/CSU ✓

#### **Latin 3 Honors**

This third year Latin language course enables students to develop advanced proficiency in the Latin Language, an increasing awareness of language, and to become familiar with Ancient Mediterranean culture and how it impacts the modern world. In this course students read authentic unadapted texts of Cicero, Sallust, Caesar, and other authors of the Golden Age of ancient Roman Literature. They will also study and review all aspects of Latin grammar and syntax while working on Latin prose composition.

#### **Preferred Previous Course of Study:**

Latin 2

Schools: M Grades: 11 12 Term: Year UC/CSU ✓

#### **AP Latin Vergil**

This course provides students with the skills needed to write a literal English translation of Latin passages, explain the use of words in appropriate context, identify and analyze characteristic or noteworthy features of an author's mode of expression, and demonstrate an awareness of the features used in the construction of a poem or an argument. Students learn to read at sight and translate literally to insure accuracy and coherence.

#### **Preferred Previous Course of Study:**

Latin 3

Schools: M Grades: 11 12 Term: Year UC/CSU ✓

#### Latin 5

This is a high school Latin 5 course that enables students to further develop an advanced proficiency in their Latin language skills while reading the writings of Ovid, Livy, Catullus and other authors of the Golden Age of ancient Roman Literature. Students will focus on advanced Latin prose composition while studying the style, diction and ideas of the ancient authors. Students will also deepen their knowledge of Latin grammar and syntax.

#### **Preferred Previous Course of Study:**

AP Latin Vergil or equivalent experience

Schools: M Grades: 12 Term: Year UC/CSU 🗸

#### Mandarin 1

Mandarin 1 will introduce students to the language of Mandarin (listening, speaking, reading, and writing) and the Chinese culture, and give a basis for continued studies. By the end of the course, students will learn how to have short conversations in Mandarin; have a basic understanding of the components of Chinese characters; broaden their understanding of the Chinese culture; and introduce them in the use of a dictionary.

#### **Preferred Previous Course of Study:**

N/A

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### Mandarin 2

Mandarin 2 will broaden students' ability in the language of Mandarin (listening, speaking, reading and writing) and the understanding of the Chinese culture. It will enable them to read longer paragraphs and carry on extended conversations. By the end of the course, students will learn how to have extended conversations in Mandarin; further expand their knowledge of Chinese characters; and further expand their understanding of the Chinese culture.

#### **Preferred Previous Course of Study:**

Mandarin 1 or equivalent experience

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### Mandarin 3

This third year Mandarin course enables students to increase their proficiency in the four skills of listening, speaking, reading and writing. They will further expand their understanding of the Chinese culture, extend their skills in grammar, and be encouraged to increase their communicative interaction with native speakers. The course objectives include the following: (1) Speaking and listening: Performing all classroom activities entirely in Mandarin. (2) Reading: students are able to read short stories and anecdotes and getting the general idea of the meaning. Students will memorize approximately 225 more Chinese characters. (3) Writing: students write long paragraphs in a daily journal and write short essays on a given topic. Students will use more discourse markers in their written and spoken discourse. (4) Cultural activities are arranged to provide each student with opportunities to enhance language and cultural learning. Students will study the Chinese culture, including religion, music, performing art, food, jade, medicine, medical care, etc.

#### **Preferred Previous Course of Study:**

Mandarin 2 or equivalent experience

Schools: A C L M Grades: 10 11 12 Term: Year UC/CSU ✓

#### **Mandarin 4 Honors**

The fourth year Mandarin course enables students to broaden their ability in the language of Mandarin through listening, speaking, reading and writing and appreciation of the Chinese culture. The course objectives include speaking and listening, reading. Students will memorize approximately 350 Chinese characters. Students will analyze commonalities and differences between Chinese and American culture through dialogue and writing.

#### **Preferred Previous Course of Study:**

Mandarin 3 or equivalent experience

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

#### **AP Chinese Language & Culture**

This fifth year Mandarin course is designed to deepen students' immersion into the language and culture of the Chinese-speaking world. Students will develop a broad range of language skills within a cultural frame of reference. The course focuses on language proficiency through listening, speaking, reading and writing while interweaving cultural content.

#### **Preferred Previous Course of Study:**

Mandarin 4 Honors or equivalent experience

Schools: A C M Grades: 11 12 Term: Year UC/CSU ✓

#### Spanish 1

This first-year Spanish language course enables students to develop novice proficiency in the four overarching goals of listening, speaking, writing, and reading. Students also develop an increasing awareness of the idiomatic aspects of language, and student the culture of countries using the language.

#### **Preferred Previous Course of Study:**

N/A

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### Spanish 2

This second-year language course enables students to develop intermediate proficiency in the four overarching goals of listening, speaking, writing, and reading in Spanish. Students also develop an increasing awareness of the idiomatic aspects of the language, continue practicing the present tense, learn past tenses, and continue studying the culture of Spanish-speaking countries.

#### **Preferred Previous Course of Study:**

Spanish 1

Schools: A C L M Grades: 9 10 11 12 Term: Year UC/CSU ✓

#### Spanish 3

This third-year language course enables students to develop intermediate proficiency in the four overarching goals of listening, speaking, writing, and reading. Students also develop an increasing awareness of the idiomatic aspects of language, continue practicing the present and past tenses, learn the present subjunctive tense, and continue studying the culture of Spanish-speaking countries.

#### **Preferred Previous Course of Study:**

Spanish 2

Schools: A C L M Grades: 10 11 12 Term: Year UC/CSU ✓

#### **Spanish for Heritage Speakers**

Spanish for Heritage Speakers is a course for students who have Spanish speaking or bilingual background. During this course students will refine their listening and oral skills as they develop their formal reading and writing abilities in Spanish to expand the grammatical structures, orthography, accents and vocabulary beyond their region of origin. This course exposes students to Hispanic culture via high interest and culturally-relevant thematic units and will utilize authentic resources (videos, audio, articles, art, music, literature, etc) from Spanish and Latin American authors in order to gain and appreciation for the cultural perspectives associated with the cultural products and practices of the Spanish-speaking world.

Course has been submitted and is pending a-g approval

#### **Preferred Previous Course of Study:**

N/A

Schools: L Grades: 9 10 11 12 Term: Year UC/CSU

#### **Spanish 4 Honors**

This fourth-year Spanish language course enables students to progress from intermediate to advanced proficiency in the four overarching goals of listening, speaking, writing, and reading. Students will use idiomatic aspects of language, finish learning all structures, and continue studying the culture and literature of all Spanish-speaking countries.

#### **Preferred Previous Course of Study:**

Spanish 3

Schools: A C L M Grades: 11 12 Term: Year UC/CSU ✓

#### **AP Spanish Language & Culture**

While emphasizing the use of Spanish for active communication, this course encompasses aural/oral skills, reading comprehension, grammar, and composition. This course is designed to develop comprehension and expression of formal and informal spoken Spanish in an accurate and fluent fashion. Vocabulary development and the composition of expository passages are highlighted.

#### **Preferred Previous Course of Study:**

Spanish 4 Honors or equivalent experience

Schools: A C L M Grades: 11 12 Term: Year UC/CSU

### **Interdisciplinary**

AUHSD schools offer a variety of courses outside of traditional departments. Several courses are college preparatory and UC (a-g) approved.

#### **Graduation Requirement**

AUHSD students are required to take one course in Health sciences.

#### **AUHSD Health Graduation Requirements:**

AUHSD students must obtain 5 credits by passing the Human and Social Development Course.

#### Minimum UC/CSU Entrance Health Requirement:

None

#### **AUHSD Non Departmental Offerings**

Note: Courses below are offered in the Acalanes Union High School District however not all courses are offered at all sites. Please look at the course descriptions to determine if a course is offered at the specific school site.

### **Peer Tutoring**

Peer tutors work in classes, study hall and/or peer-tutor centers to help students with work in various academic subjects. Peer tutors should have strong skills in reading, writing, science, world languages or mathematics and should be genuinely interested in helping others to become successful students.

#### **Staff Assistant**

Staff Assistant provides students the opportunity to develop communication skills, employability skills, and behaviors essential for employment, with emphasis on careers in education. Students must have the ability to work with others and independently. Staff assistants work under the direction and supervision of the assigned classroom teacher, office administrator or librarian. Students grade is not calculated into the students GPA.
