

The Mt. SAC High School Referral Program provides FREE high school classes on the Mt. SAC campus to current high school students!

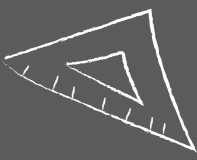

Do you have students who...

need to complete an a-g approved course (including Biology and Chemistry)?

want to "get ahead" and complete classes to free them up for APs or early graduation?

are falling behind and need to make up credits or improve a grade?

would do better in a classroom environment than online?

Academic year option - September through May

English, social science, math, science, and elective courses
Offered in the evenings from 4pm-8pm
Students can create their own schedules and do not have to attend every day
Almost all courses are available for "make-up" or "get-ahead"

Summer option - June and July

English, social science, math, science, and elective courses
Students must attend in the afternoons from 2:30-8:30pm for one or two three-week sessions
Students can take morning classes at their high school and attend Mt. SAC HSR in the afternoons
All courses are available for "make-up" or "get-ahead"
