Frequently Asked Questions

How many classes should I select?

You should choose 8 courses (Check marks) that you want to take, plus 5 alternate courses numbered 1-5 in order of preference.

Some classes have a / or / / / or / / / / next to them, what does that mean?

These classes meet for more than one block during the year. You must add that number as part of the 8 courses in your schedule. The / is a semester separation marker. **Do not select this type of class as an alternate.**

What if I don't turn in my registration form?

The Student Services Staff will select classes for you. You may not get any class that you want and you will have to deal with it.

Why do some classes need an application?

Some classes require you to fill out an application. Applications are available in the Student Services office. These classes may be held in another building, require tuition/tuition waiver or need additional information for the instructor. Some classes have a difficult workload with deadlines. The instructor is interested in making sure you understand this commitment. You will not get the class if you do not fill out the packet and turn it in.

Why do some classes have a prerequisite?

Some classes build on information gained in prior coursework. If you do not understand enough of the previous work, you will struggle. We do not set students up for failure.

When do I know if I received the schedule that I requested?

All schedules will be available for pick up at summer registration in July.

What if I don't get the schedule that I requested?

You may ask for a schedule change. However, PCHS does not guarantee that you will get all of your selections, a specific lunch schedule, or that you will be with your friends. We do guarantee that you will have a schedule that will advance you to graduation and the opportunity to meet new friends. Please be open to new experiences.

Will my schedule change between the time that I pick it up in July and the beginning of school?

Hopefully, your schedule will not change. However, the Student Services department may need to balance classes or move students for some other reason. We ask your cooperation to make the opening of school a smooth one.

THANK YOU

YOU'VE
BEEN
GREAT!
