2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

School Description:

El Rancho High School (ERHS), located in Pico Rivera, was established in 1952. ERHS is a large, suburban school in Los Angeles County, California, situated 11 miles east of downtown Los Angeles in a largely blue-collar community. As of 2020, the city's population was estimated at 62,088 with 90.7% of residents identifying themselves as Hispanic or Latino. In addition, 70.8% of the population reported an educational level of high school graduate or higher. The median household income is \$67,636 with 8.8% of the population living in poverty, and 79.8% of households report having broadband internet access.

Vision:

Ensuring high levels of success for all.

Mission Statement:

The community of El Rancho High School is committed to developing students with the skills needed to be critical thinkers, to be respectful and responsible, and to be ready for success after high school. This will be achieved through creating a positive and engaging environment that fosters high expectations for student achievement, that supports staff, and that engages family and community.

Schoolwide Learner Outcomes:

- Demonstrate academic excellence
- Optimize academic and career opportunities
- Navigate individualized pathways to success
- Strengthen problem-solving and critical-thinking skills

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The El Rancho Unified School District follows the State adoption guidelines and adoption cycles for textbooks in reading, math, social studies, science, and English language development (ELD) used in the elementary schools. Recommendation for adoption of textbooks is made through a District committee of teachers, administrators, and parents. Input from all school staff members and parents are vital to making the recommendation. The District Committee discusses the school's recommendations and votes for a textbook to be adopted. The recommendation is then taken to the school board, who makes the final decision on the adoption of all textbooks.

Textbooks are adopted from the most recent state-approved list and are consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education. Every student is assigned one textbook and workbook in the core subjects for use in class and to take home.

School Facility Conditions and Planned Improvements

The high school was built in 1952, and at that time won an award from California for its architecture. Modernized in 2002, each of the 134 classrooms has Internet connectivity, a telephone, and a combination of different technology equipment. The school's library, staffed by one full-time librarian and one library media technician, houses a computer lab and two study areas that are available for student use before school and after school. Due to the COVID-19 Pandemic air scrubbers have been placed in every classroom and student-used area, and appropriate air filters have been placed in main office areas. Facility improvements include the uniformity of classroom paint, upgraded flooring in several buildings, a project to rebuild the school pool and locker rooms, and plans to redesigning the athletic fields.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	61	N/A	39	N/A	47
Mathematics (grades 3-8 and 11)	N/A	21	N/A	22	N/A	33

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2021-22 Career Technical Education Programs

The CTE courses are included in a variety of pathways at El Rancho High School. Many of our CTE courses are offered through the Visual/Performing Arts department and the Regional Occupation Program (ROP). During the 2020-21 school year, there were nine ROP courses offered on campus, all of which are aligned with the appropriate State Standards and are taught by certified ROP teachers. All of these courses directly lead to more advanced college courses and/or a viable occupation. The four graphic arts courses offered within the Visual/Performing Arts department are articulated with a local city college. Students are encouraged to continue with the coursework at college in order to be competitive in the job market.

El Rancho High School offers the following pathways:

- Health Science and Medical Technology
- Hospitality, Tourism, and Recreation
- Building and Construction Trades
- PLTW Engineering and Architecture
- PLTW Biomedical

ERHS offers a program that is articulated with a Rio Hondo Community College. PLTW Engineering articulates courses and earn credit through Cerritos Community College. ROP courses include the following: Advanced Culinary, International Cuisine, Introduction to Culinary Arts, Medical Core, ROP Emergency First Responder, CNA, Sports Medicine 1 and 2, Introduction to Construction, and Construction Technology. The primary representative of the District's Career Technical Advisory Committee is Delia Arriola, College and Career Counselor of El Rancho High School. Ms. Arriola works closely with the College & Career Advisor, staffed by Tri-Cities ROP, to make sure that students have access to CTE courses.

Our goal is to continue offering programs and classes that are integrated with our Standards-based curriculum while developing career pathways that will help students meet the demanding performance requirements expected of the 21st-century workforce. New programs are in development to support these stated goals.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade 9	89%	80%	83%	81%	83%

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

El Rancho High School is committed to fostering partnerships with parents to support students to be successful. Though the COVID-19 Pandemic has modified the way we interact with our parents, with the return to in-person learning, the school is gradually working to host in-person events and activities that keep parents informed and engaged.

Back to School Night was hosted in late August and Parent Conferences were held in October.

Weekly parent updates are provided via Parent Square communication with information about daily schedules and other activities.

Several workshop nights for parents have been presented by our counseling staff and the College and Career Center.

Future Don Night is a night for families of incoming students to learn more about what El Rancho High School has to offer. This event usually takes place at the start of the second semester in our main gym. Families have the opportunity to gather information from all the different clubs and extracurricular programs, participate in small workshop sessions, and speak with teachers and counselors.

In addition to these opportunities, parents are involved in other committees and organizations on our campus when available in person, such as:

School Site Council

ELAC

Booster Organizations

WASC Focus on Learning Process

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	4.38	2.16	2.45
Expulsions	0.08	0.08	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2022-23 School Safety Plan

El Rancho High School provides a safe and clean campus to promote a positive and clean environment for students. The Comprehensive School Safety Plan (CSSP) is reviewed and updated annually. The most recent review and approval was on September 15, 2022, by SSC. The School Safety Plan has been standardized with the District Standard Emergency Management System (SEMS) plan and includes most possible scenarios related to school safety. Earthquake and fire drills are conducted regularly to prepare all students and staff. To assure effective preparedness in case of an emergency, staff members review each drill. The school maintains disaster emergency supplies.

The school maintains a closed-campus policy. All visitors must enter and exit via the front school office. All visitors must check in at the office and wear an appropriate visitor's pass. Administrators, counselors, teachers, security personnel, and staff provide supervision throughout the day and during events and activities. Additionally, District School Police and a School Resource Officer are available to further assure the safety of students and staff before, during, and after school. Recommendations by the Office of Public Health are followed and students determined to be in close contact or with positive results are required to remain at home until cleared. Restrooms are stocked with soap to promote handwashing, and each open restroom is sanitized once every 30 minutes. Hand sanitizer stations are available in every office and classroom.

2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Professional Development

The district provides professional learning opportunities to meet the needs of administrators, teachers, and support staff at all levels of the organization: Beginning Teachers Support and Assessment (BTSA); Peer Assistance Review (PAR) for veteran teachers; District and site administrators; Teachers and support staff; and Digital Learning Coaches.

El Rancho Unified School District began the 2022-2023 school year with a summer teacher academy for those teachers who signed up. During this time teachers were offered the opportunity to be provided with time to work in their subject areas developing pacing guides and lesson planning. In addition, teachers were provided with an in-service on Universal Design for Learning. During the school year topics addressed are and will be Data analysis, English learner support, and Student Engagement. The professional development days focused on Math, language arts, and science cadres which allow vertical and horizontal collaboration between teachers across the district. Site-based professional development at ERHS is based on a needs assessment survey which aligns with the instructional focus areas. English learners and special population training are offered on-site and at the district level as needed. In addition, teachers and support staff also have the opportunity to participate in virtual workshops or conferences.

Traditionally, the analysis of data led to the identification of professional learning priorities. Whole group instruction, small group differentiated instruction, and designated English language development supported strengthening language arts instruction at the elementary level. Professional learning in mathematics focused on the Standards for Mathematics Practice, in conjunction with problem-solving and modeling, and data analysis at the middle school level. At the high school, professional learning was prioritized for the Expository Reading and Writing Course which develops students' academic literacy in rhetorical and analytical reading, writing, and thinking. All schools participated in professional learning opportunities centered on data literacy. Professional development has traditionally been provided during modified day schedules, pupil-free days, release days, and conferences/workshops outside the district. Professional learning is supported through in-class coaching, teacher-principal meetings, observations, and demonstration lessons.

Embedded in the instructional schedule, Monday and Friday mornings are used for site-based or district-based professional learning opportunities. The focus during the professional learning opportunities includes department collaboration, special programs planning, WASC focus group discussions, instructional best practices, social-emotional learning and mental health practices, data analysis, and teacher collaboration and planning.
